In supersession of the Rules of Practice noted in the margin, the Chief Court, under Section 553 of the Code of Criminal Procedure, and with the sanction of Government, has framed the following Rules, for the submission of Calendars :—

No. 30, dated 5th July 1883.
No. 38, dated 6th January 1885.
No. 44, dated 27th October 1886.
No. 48, dated 15th August 1887.
No. 52, dated 12th March 1890.

ORIGINAL JURISDICTION.

1. *Sessions Judges.*—Courts of Sessions Judges will transmit to the Chief Court, copies of all judgments and orders, together with a tabular statement in the annexed form, within 48 hours after the date of pronouncing judgment or order in each case.

2. In cases which may be submitted to a Sessions Judge, for confirmation of sentence, under para 2, Section 34, Criminal Procedure Code, a copy of the order passed by the Sessions Judge, together with a copy of the judgment passed by the Deputy Commissioner exercising the special powers, should be submitted with a tabular statement in the annexed form, within 48 hours from the date of the order.

3. *District Magistrates.*—District Magistrates will forward to the Chief Court copies of all their judgments and orders, together with a tabular statement in all cases tried by them, including proceedings held under Chapters 8, 10, 11, 12 and 36 of the Code of Criminal Procedure, within 24 hours after pronouncing the judgment or order.

4. *Sub-Division Magistrates and* 1*st Class Magistrates.*—Sub-Division Magistrates and all First Class Magistrates will submit copies of judgments and orders, together with a tabular statement to the District Magistrate, in all cases tried by them, including the proceedings held by them under Chapters VIII, X, XI, XII and XXXVI of the Criminal Procedure Code, within 24 hours after the close of the trial.

5. District Magistrates will, after perusal, forward them without delay to the Chief Court, bringing at the same time to the notice of the Chief Court any errors or irregularities in the proceedings of the Magistrates. Judgments or orders passed in summons cases by Sub-Division Magistrates and by First Class Magistrates need not be submitted to the Chief Court under this rule. This does not prevent a District Magistrate from submitting a judgment for the perusal of the Chief Court, if he considers that the case is of some importance, or that it is otherwise necessary.

6. All Second and Third Class Magistrates will submit copies of all judgments and orders passed by them, together with the prescribed statements, to the District Magistrate, and when there is a Sub-Division Magistrate, through such Magistrate, within 24 hours after the close of the trial. In the latter case, the Sub-Division Magistrate will, after examining the statements, judgments and orders, forward them to the District Magistrate, bringing at the same time to the notice of the District Magistrate, any errors or irregularities in the proceedings of the Subordinate Magistrates.

7. If an order of discharge is passed by a District Magistrate, under Section 209 of the Criminal Procedure, a copy of the order will, in the first instance, be submitted to the Sessions Judge. If the order is passed by any other Magistrate, he will forward it to the District Magistrate, who will, without unnecessary delay, forward it to the Sessions Judge. Sessions Judges will forward these copies after perusal to the Chief Court.

8. Statements need not accompany copies of judgments or orders when cases are compounded, or are permitted to be withdrawn, or when they are dismissed for default of the complainant's appearance.

9. District Magistrates, to whom copies of judgments of the Subordinate Magistracy are submitted, will carefully examine them and report at once to the Chief Court any cases which, in their opinion, may call for revision.

10. Copies of proceedings, if any, passed by District or Sub-Division Magistrates, on the statements and judgments submitted to them, together with copies of the statements and judgments so revised, will be submitted by District Magistrates to the Chief Court. If no proceedings are passed by a District Magistrate or a Sub-Division Magistrate, on the statements and judgments submitted to them, the statements and judgments themselves need not be submitted to the Chief Court.

APPELLATE JURISDICTION.

11. A copy of every judgment or order passed by Sessions Judges in the exercise of their Appellate Jurisdiction and a copy of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

12. A copy of every judgment or order passed by District Magistrates in the exercise of their Appellate Jurisdiction and of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

13. Copies of judgments on appeal and of miscellaneous orders as above passed by Sub-Division Magistrates and 1st Class Magistrates, will be submitted within 48 hours to the District Magistrate. The District Magistrate, after examining them, will submit them to the Chief Court.

14. A copy of judgment passed on appeal which, under paras 11, 12 and 13, is required to be submitted to the Chief Court or the District Magistrate, shall invariably be accompanied by a copy of the judgment or order appealed against, together with the statement accompanying such judgment or order.

15. Copy of proceedings, if any, passed by District Magistrates on the judgments and orders passed on appeal and submitted to them as above, will be forwarded to the Chief Court.

Note.—(*a.*) Any remark to the effect that a judgment is not in the prescribed form, or that it is not submitted within the prescribed time, or an order calling for an explanation, is not a proceeding within the meaning of this rule and of rule ten.

(*b.*) It is not a proceeding within the meaning of this rule and of rule ten, when a District Magistrate simply remarks that the sentence passed by a Subordinate Magistrate might have been more or less severe, but does not consider it necessary to make a reference to the Chief Court.

16. The following are some of the points which District Magistrates will particularly notice when exercising their powers of supervision :—

(*a.*) The rash or unnecessary issue of process.

(*b.*) The dealing with disputed claims of right under color of a charge of criminal trespass or mischief and convictions for these offences without a finding as to the criminal intent.

(*c.*) The indiscreet imposition of fines beyond the means of offenders.

(*d.*) The light punishment, by inferior Courts, of offences requiring severe sentences in cases which ought to have gone up to a superior Court for enhanced punishment.

(*e.*) The imposition of heavy fines in addition to imprisonment with a view, in default of payment, to extend the term of imprisonment beyond the ordinary powers of the Magistrate to inflict.

(*f.*) The exaction of excessive bail or excessive security for keeping the peace or for good behavior.

(*g.*) Unnecessary delay in the disposal of cases.

2. In cases which may be submitted to a Sessions Judge, for confirmation of sentence, under para 2, Section 34, Criminal Procedure Code, a copy of the order passed by the Sessions Judge, together with a copy of the judgment passed by the Deputy Commissioner exercising the special powers, should be submitted with a tabular statement in the annexed form, within 48 hours from the date of the order.

3. *District Magistrates.*—District Magistrates will forward to the Chief Court copies of all their judgments and orders, together with a tabular statement in all cases tried by them, including proceedings held under Chapters 8, 10, 11, 12 and 36 of the Code of Criminal Procedure, within 24 hours after pronouncing the judgment or order.

Judgments or orders passed in summons cases by Sub-Division Magistrates and by First Class Magistrates need not be submitted to the Chief Court under this rule. All Second and Third Class Magistrates will submit copies of all judgments and orders passed by them, together with the prescribed statements, to the District Magistrate, and when there is a Sub-Division Magistrate, through such Magistrate, within 24 hours after the close of the trial. Sessions Judges will forward these copies after perusal to the Chief Court.

8. Statements need not accompany copies of judgments or orders when cases are compounded, or are permitted to be withdrawn, or when they are dismissed for default of the complainant's appearance.

9. District Magistrates, to whom copies of judgments of the Subordinate Magistracy are submitted, will carefully examine them and report at once to the Chief Court any cases which, in their opinion, may call for revision.

10. Copies of proceedings, if any, passed by District or Sub-Division Magistrates, on the statements and judgments submitted to them, together with copies of the statements and judgments so revised, will be submitted by District Magistrates to the Chief Court. If no proceedings are passed by a District Magistrate or a Sub-Division Magistrate, on the statements and judgments submitted to them, the statements and judgments themselves need not be submitted to the Chief Court.

The Board have lost a most valuable officer in his death and he would recommend that the Board should communicate to his family the high sense they entertain of Mr. Raghavendra Rao's services and their sympathy for them in their sad bereavement. JUDICIAL DEPARTMENT.

IN THE CHIEF COURT OF MYSORE.

Criminal Side.

Rule of Practice No. 58, *dated* 1*st September* 1892.

In supersession of the Rules of Practice noted in the margin, the Chief Court, under Section 553 of the Code of Criminal Procedure, and with the sanction of Government, has framed the following Rules, for the submission of Calendars :—

No. 20, dated 5th July 1883.
No. 38, dated 6th January 1885.
No. 44, dated 27th October 1886.
No. 48, dated 15th August 1887.
No. 52, dated 12th March 1890.

ORIGINAL JURISDICTION.

1. *Sessions Judges.*—Courts of Sessions Judges will transmit to the Chief Court, copies of all judgments and orders, together with a tabular statement in the annexed form, within 48 hours after the date of pronouncing judgment or order in each case.

2. In cases which may be submitted to a Sessions Judge, for confirmation of sentence, under para 2, Section 34, Criminal Procedure Code, a copy of the order passed by the Sessions Judge, together with a copy of the judgment passed by the Deputy Commissioner exercising the special powers, should be submitted with a tabular statement in the annexed form, within 48 hours from the date of the order.

3. *District Magistrates.*—District Magistrates will forward to the Chief Court copies of all their judgments and orders, together with a tabular statement in all cases tried by them, including proceedings held under Chapters 8, 10, 11, 12 and 36 of the Code of Criminal Procedure, within 24 hours after pronouncing the judgment or order.

4. *Sub-Division Magistrates and* 1*st Class Magistrates.*—Sub-Division Magistrates and all First Class Magistrates will submit copies of judgments and orders, together with a tabular statement to the District Magistrate, in all cases tried by them, including the proceedings held by them under Chapters VIII, X, XI, XII and XXXVI of the Criminal Procedure Code, within 24 hours after the close of the trial.

5. District Magistrates will, after perusal, forward them without delay to the Chief Court, bringing at the same time to the notice of the Chief Court, any errors or irregularities in the proceedings of the Magistrates. Judgments or orders passed in summons cases by Sub-Division Magistrates and by First Class Magistrates need not be submitted to the Chief Court under this rule. This does not prevent a District Magistrate from submitting a judgment for the perusal of the Chief Court, if he considers that the case is of some importance, or that it is otherwise necessary.

6. All Second and Third Class Magistrates will submit copies of all judgments and orders passed by them, together with the prescribed statements, to the District Magistrate, and when there is a Sub-Division Magistrate, through such Magistrate, within 24 hours after the close of the trial. In the latter case, the Sub-Division Magistrate will, after examining the statements, judgments and orders, forward them to the District Magistrate, bringing at the same time to the notice of the District Magistrate, any errors or irregularities in the proceedings of the Subordinate Magistrates.

7. If an order of discharge is passed by a District Magistrate, under Section 209 of the Criminal Procedure, a copy of the order will, in the first instance, be submitted to the Sessions Judge. If the order is passed by any other Magistrate, he will forward it to the District Magistrate, who will, without unnecessary delay, forward it to the Sessions Judge. Sessions Judges will forward these copies after perusal to the Chief Court.

8. Statements need not accompany copies of judgments or orders when cases are compounded, or are permitted to be withdrawn, or when they are dismissed for default of the complainant's appearance.

9. District Magistrates, to whom copies of judgments of the Subordinate Magistracy are submitted, will carefully examine them and report at once to the Chief Court any cases which, in their opinion, may call for revision.

10. Copies of proceedings, if any, passed by District or Sub-Division Magistrates, on the statements and judgments submitted to them, together with copies of the statements and judgments so revised, will be submitted by District Magistrates to the Chief Court. If no proceedings are passed by a District Magistrate or a Sub-Division Magistrate, on the statements and judgments submitted to them, the statements and judgments themselves need not be submitted to the Chief Court.

APPELLATE JURISDICTION.

11. A copy of every judgment or order passed by Sessions Judges in the exercise of their Appellate Jurisdiction and a copy of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

12. A copy of every judgment or order passed by District Magistrates in the exercise of their Appellate Jurisdiction and of every miscellaneous order passed by them under the provisions of the Criminal Procedure Code, finally disposing of any matter *sub judice*, will be submitted to the Chief Court within 48 hours after passing the same.

13. Copies of judgments on appeal and of miscellaneous orders as above passed by Sub-Division Magistrates and 1st Class Magistrates, will be submitted within 48 hours to the District Magistrate. The District Magistrate, after examining them, will submit them to the Chief Court.

14. A copy of judgment passed on appeal which, under paras 11, 12 and 13, is required to be submitted to the Chief Court or the District Magistrate, shall invariably be accompanied by a copy of the judgment or order appealed against, together with the statement accompanying such judgment or order.

15. Copy of proceedings, if any, passed by District Magistrates on the judgments and orders passed on appeal and submitted to them as above, will be forwarded to the Chief Court.

Note.—(*a.*) Any remark to the effect that a judgment is not in the prescribed form, or that it is not submitted within the prescribed time, or an order calling for an explanation, is not a proceeding within the meaning of this rule and of rule ten.

(*b.*) It is not a proceeding within the meaning of this rule and of rule ten, when a District Magistrate simply remarks that the sentence passed by a Subordinate Magistrate might have been more or less severe, but does not consider it necessary to make a reference to the Chief Court.

16. The following are some of the points which District Magistrates will particularly notice when exercising their powers of supervision :—

(*a.*) The rash or unnecessary issue of process.

(*b.*) The dealing with disputed claims of right under color of a charge of criminal trespass or mischief and convictions for these offences without a finding as to the criminal intent.

(*c.*) The indiscreet imposition of fines beyond the means of offenders.

(*d.*) The light punishment, by inferior Courts, of offences requiring severe sentences in cases which ought to have gone up to a superior Court for enhanced punishment.

(*e.*) The imposition of heavy fines in addition to imprisonment with a view, in default of payment, to extend the term of imprisonment beyond the ordinary powers of the Magistrate to inflict.

(*f.*) The exaction of excessive bail or excessive security for keeping the peace or for good behavior.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed, if the defaulter, or any other person acting on his behalf or claiming an interest in the land, tenders the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

The 20th January 1893.

Notice is hereby given that the undermentioned lands in the Mudgere Taluk, Kadur District, applied for for coffee cultivation, will be sold by public auction at 11 A. M. on Wednesday the 1st March 1893 at Mudgere before the Amildar or Deputy Amildar of the Mudgere Taluk, subject to the confirmation of the Deputy Commissioner of this District.

2. The sale shall be by public auction under the usual conditions and the land shall be knocked down to the highest bidder above the upset price, *viz.*, Rs. 10 per acre. The deposit of one-fourth of the upset price made by the applicant shall, if the land be knocked down to him at the auction, be credited towards his deposit of 25 per cent of the purchase money and it shall be refunded to him if the land is purchased by any other person in the auction.

3. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal, which will always be reserved absolutely by Government.

4. The highest bidder should, immediately after the close of the sale, pay a deposit of 25 per cent of the purchase money inclusive of the deposit referred to in para 2 and the remainder before sunset on the 15th day from the date of sale as provided for by the rules in force; in default, the land will be resold at the risk of the defaulter, who will have to make good the deficiency, if any, at the second sale, but will have no claim to the excess, if any.

5. The land sold under these rules shall be held free of assessment for the first three years and on half assessment for the next two years, full assessment being payable from and after the sixth year. But before the concession is granted, the purchaser must bind himself in writing to pay the full assessment from the first year in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it, but without having made any *bonâ fide* attempt to bring under cultivation the arable area included in it.

1. Read and explained Proceedings of Government No. 7421-23—L. F. 47-92, dated 1st December 1892, regarding the curtailment of Rs. 13,050 in the Budget for 1892-93 on account of extra expenditure incurred in 1891-92.

Read also correspondence ending with Executive Engineer's No. 253, dated 16th December 1892, to the effect that no deductions in the sanctioned allotments are possible compatible with the requirements of works and efficient maintenance of roads.

The President having explained that no reduction could be made in the allotments under Civil Charges or under Public Works (to be executed by the Revenue Department), the Board resolved that in these circumstances the balance of Rs. 5,531 be retained with the understanding that Rs. 13,050 had been made available or availed of, during 1891-92.

Further resolved that Government be requested to allot such funds as they may consider necessary, to render possible such adjustments as may be found desirable.

2. Read and explained the statement showing the estimated assets for the year 1893-94.

Noted.

The balance on 1st July 1893, as per Government Proceedings No. 1874-85—L. 292, dated 3rd May 1892, and No. 9060-3—L. F. 149-92, dated 22nd December 1892, is found to be Rs. 5,531; adding this to the probable receipts, namely, 51,060 for 1893-94, as estimated for, the total assets available is found to be Rs. 56,591.

3. Read the statement of Civil Charges sanctioned for the year 1892-93.

Noted.

4. Read Government Proceedings No. 1874-85—L. 292, dated 3rd May 1892, requesting to report whether the retention of the additional Statistical Clerk on Rs. 15 per month is absolutely necessary and whether other arrangements could not be made to do his work.

Resolved that as the work of the Local Fund Department in the Deputy Commissioner's Office is very heavy owing to increase of correspondence, and that as one hand cannot manage the whole work efficiently, Government be requested to sanction the retention of the additional Statistical Clerk and as a permanent measure.

5. Read Government Proceedings No. 5015-6—L. F. 4-92, dated 10th October 1892, enquiring whether the Local Fund Board is willing to bear ⅔rds cost of Rs. 632, or Rs. 422, consequent on the Establishment of a Dispensary for women and children in the Chikmagalur Municipality.

After much discussion as to the usefulness or otherwise of such a Dispensary, it was resolved by a majority of the members that ⅔rds cost of Rs. 632 be paid from the District Funds.

6. Proposed by the Civil Surgeon that 3 more Midwives be appointed, the total number being raised to 5 which would give one for each Taluk.

The President explained that there was a provision in the Budget of 1892-93 for 2 Midwives on Rs. 20 each per month, that one had been entertained and that another would be appointed as soon as suitable person was found.

Resolved that according to the opinion expressed by Colonel Campbell, the then Deputy Commissioner, in a previous meeting, and as the Board concurring in his views, considers that their services were, not to say absolutely necessary, such that the country would feel it as a great boon conferred on it, provision be made for 3 more Midwives in addition to the two already provided for and that they be appointed in the following circles :—

Locality.	*Circle.*
Kadur, Birur	1
Tarikere	1
Mudgere	1
Sollebail, Balehonnur, Kalasa	1

7. Proposed by the President that the provision of Rs. 240 on account of 2 Medical Scholarships be met.

Resolved that as was done in the last year Rs. 240, at the rate of Rs. 10 per mensem for each scholar, be provided for.

8. Proposed by the President and Amildars in a body, that a large sum be provided on account of sanitary improvements of villages in accordance with Government Proceedings No. 8187-94—L. 648, dated 29th October 1891 and Proceedings No. 2849-58—Cir. 26, dated 14th May 1892.

Resolved that as the sanitation of rural parts which is of primary importance is much neglected, and that as it is further desirable to remove thickly grown lantana, aloe, &c., which give shelter to reptiles, a sum of Rs. 1,500 be provided for as in other Districts and distributed among the Taluks as noted in the margin.

Resolved that the balance be spent in purchases and that Rs. 200 be provided for on account of feeding charges.

10. Read Senior Surgeon's Docket No. 2106, dated 25th May 1892, stating that if practicable 2 chairs be supplied to the Dispensary at Yedahalli.

Resolved that a provision of Rs. 8 for 2 chairs be made.

11. Read Senior Surgeon's Docket No. 1947, dated 25th November 1891, forwarding estimate of articles required for Sollebail, Kadur, Tarikere, Yedahalli and Koppa Dispensaries.

Resolved that Rs. 150 be provided for the purpose.

12. Read Civil Surgeon's Docket No. 1014, dated 22nd November 1891, regarding the increase of pay of waterman of the Yedahalli Dispensary.

Resolved that as the pay of waterman in all places is Rs. 2, no increase should be allowed as it would create a bad precedent.

13. Proposed by the Koppa Amildar that the pay of sweeper of the Hariharpur Bungalow be increased from Rs. 5 to 7 as he would then be able to secure a person who would attend to the Sweeper's work as well as that of a Scavanger.

Resolved that the increase be granted, with the understanding that the man will do both as Sweeper and Scavenger.

14. Proposed by the Koppa Amildar that the pay of Sweeper of the Yedahalli Bungalow be increased from 5 to 7 on the above ground.

Resolved that the increase be given.

15. Proposed by the Mudgere Amildar that the pay of the Sweeper of the Mudgere Musafarkhana be increased from Rs. 6 to 7 on the above ground.

Resolved that the increase be given.

16. Proposed by the Mudgere Amildar that the pay of the Dandi of the Mudgere Bungalow be increased from Rs. 4 to 6.

Resolved that as the pay of the Dandi is generally Rs. 6 in the Malnad, the increase asked for be granted.

17. Proposed by the Executive Engineer that the Inspection Lodge at Attigundi in the Chikmagalur Taluk be treated as a public Bungalow of the class of those at Mallandur and Aniganahalli, and that a Watchman be appointed to look after the same.

18. Proposed by Mudgere Amildar that the pay of Watchman in the Bungalows of Sampigekhan, Balehole and Kotigehar be increased from Rs. 6 to 7.

Resolved that as the pay of Watchman in other places is only Rs. 6, no incraerse can be given as proposed.

19. Proposed by the Koppa Amildar that a Kotval on Rs. 8 per month be appointed for Sollebail and one for Hariharpur.

Resolved that the Government orders be awaited regarding the classification of the Bungalows according as they are situate on Provincial or District Funds Boards and regarding the scale of such establishment.

20. Proposed by Dr. Fernandes and the Koppa Amildar that a Dispensary be established at Sringeri and maintained from District Funds as it would be useful both to the people of the Jahgir and the Sarkar Villages around in Koppa and Mudgere Taluks.

Placed before Board correspondence ending with docket No. 982 of 1887, to the Senior Surgeon stating that the Matt would or could not bear all expenses connected with a Dispensary.

The Koppa Amildar stated that the Matt and the Municipality together would bear half the charges.

After much discussion, it was resolved that the Government sanction be solicited for a contribution of one-fourth of the cost of the Dispensary being met from District Funds on condition that the remaining three-fourths be borne by the Matt and the Municipality together (in such proportion between them as may be considered expedient before finally deciding the question) as the Dispensary will be of great use to the Government villages of Kigga, Kere and Nemmar Maganis of the Koppa Taluk beyond the Sringeri Jahgir, and others who may find it convenient to visit the place and indispensable in a place like Sringeri always more or less sickly and thronged by pilgrims.

21. Proposed by Mr. Clifford that a Dispensary be established at Balehonnur and maintained from District Funds.

Resolved that Rs. 1,500 be provided for repairs of Cattle Pounds, &c.

SUMMARY.

As detailed in Enclosure D, the charges of the Civil Department for 1893-94 amounted to Rs. 14,854.

(e) Hassan-Tiptur road.

III. Discussed the Budget for 1893-94.

There are at present 15 Sweepers for 3rd Class Travellers' Bungalows and 8 for Musafarkhanas at 4 rupees, only one of them (the Sweeper of the Musafarkhana at Gubbi) getting 5 rupees. All the Amildars having represented that it is very difficult to get Sweepers on 4 rupees in these days, the Members resolved to raise the pay to 5 rupees from 1st July 1893. Further as fresh Musafarkhanas have been built at Holavanahalli, Chiknayakanhalli, Banasandra, Yeladabagi, Dodguni, Chelur and Bellavi, seven more Sweepers are needed. Provision is accordingly made in the Budget for these. Unlike the other 3rd Class Travellers' Bungalows which have only one man as Sweeper, those at Nittur and Yediyur have in addition a Waterman each on 4 rupees. The Members resolve to dispense with these two additional men and make all Bungalows alike. Accordingly these two Watermen have not been provided for in the Budget.

President.

MYSORE STATE LIFE INSURANCE.

Circular No. 13, *dated* 17*th February* 1893.

Instances having come under notice of premiums due on Policies not being paid regularly month by month by insured officials direct or by deduction from their pay by Heads of Departments, and as it is apprehended that this irregularity is the result of the rules on the subject not being understood, the undersigned has the honor to invite the attention of Heads of Departments and Treasury Officers to Clause 24 of the Mysore State Life Insurance Rules, which distinctly requires premiums to be paid in advance. By advance is meant the month in which the premium is credited in the Treasury accounts. For example, the 1st premium paid during, say, the month of October is for October; the 2nd premium payable from October's pay is for November and so on.

In several instances, the 1st premium was paid during a month, the second premium payable from the same month's salary was withheld on the presumption apparently that the 1st premium having been paid during the month, no premium is recoverable from pay for that month paid in the following month. This is not intended by the rules and should be guarded against in future.

The Heads of Departments and the Treasury Officers are therefore particularly requested to see that in future due attention is paid to the rules referred to above and that all premiums are recovered strictly in advance.

Proposed by the Sagar Sub-Division Officer that the pay of the Sweepers belonging to the Bungalows and Musafarkhanas noted below may be raised as follows:—

Sorab Bungalow Sweeper from Rs. 4 to 5 per mensem.
Kallurkatte Bungalow from Rs. 4 to 5 per mensem.
Benavalli Bungalow from Rs. 4 to 5 per mensem.
Godekoppa Musafarkhana from Rs. 2 to 4 per mensem.

Resolved that necessary provision be made in the Budget subject to the approval of Government.

A provision of Rs. 180 is made in the Budget for two Midwives at 7½ Rs. per mensem being the moiety of their pay in addition to the 2 already sanctioned by Government in Proceedings No. 13383-5—L. F. 55-92, dated 3rd February 1893, as they are likely to pass this year, and have to be employed on their return.

Proposed by the Sagar Sub-Division Officer that a Local Fund Circle for the Sub-Division may be formed with its Head-quarters at Sagar.

The Executive Engineer seconded the proposition.

The Board thinks that it is very convenient that the Meetings of the Members residing in the Sub-Division should be held at its Head-quarters to consider the requirements of the three Taluks comprised thereof. There is now only a single Non-Official Member on the Board, who resides within the Sub-Division. A few more Non-Official Members will have to be appointed and the necessary point settled before a separate circle is formed, especially the allotment of Funds, with due consideration of the requirements not only of the three Taluks in the Sub-Division, but also of the other five Taluks in the District comprising both Maidan and Malnad.

The question has to be fully considered, if the Government are pleased to decide that a separate circle for the Sub-Division should be formed.

MYSORE STATE LIFE INSURANCE.

Circular No. 13, *dated* 17*th February* 1893.

Instances having come under notice of premiums due on Policies not being paid regularly month by month by insured officials direct or by deduction from their pay by Heads of Departments, and as it is apprehended that this irregularity is the result of the rules on the subject not being understood, the undersigned has the honor to invite the attention of Heads of Departments and Treasury Officers to Clause 24 of the Mysore State Life Insurance Rules, which distinctly requires premiums to be paid in advance. By advance is meant the month in which the premium is credited in the Treasury accounts. For example, the 1st premium paid during, say, the month of October is for October; the 2nd premium payable from October's pay is for November and so on.

In several instances, the 1st premium was paid during a month, the second premium payable from the same month's salary was withheld on the presumption apparently that the 1st premium having been paid during the month, no premium is recoverable from pay for that month paid in the following month. This is not intended by the rules and should be guarded against in future.

The Heads of Departments and the Treasury Officers are therefore particularly requested to see that in future due attention is paid to the rules referred to above and that all premiums are recovered strictly in advance.

MYSORE STATE LIFE INSURANCE.

Circular. No. 13, *dated* 17*th February* 1893.

Instances having come under notice of premiums due on Policies not being paid regularly month by month by insured officials direct or by deduction from their pay by Heads of Departments, and as it is apprehended that this irregularity is the result of the rules on the subject not being understood, the undersigned has the honor to invite the attention of Heads of Departments and Treasury Officers to Clause 24 of the Mysore State Life Insurance Rules, which distinctly requires premiums to be paid in advance. By advance is meant the month in which the premium is credited in the Treasury accounts. For example, the 1st premium paid during, say, the month of October is for October; the 2nd premium payable from October's pay is for November and so on.

In several instances, the 1st premium was paid during a month, the second premium payable from the same month's salary was withheld on the presumption apparently that the 1st premium having been paid during the month, no premium is recoverable from pay for that month paid in the following month. This is not intended by the rules and should be guarded against in future.

The Heads of Departments and the Treasury Officers are therefore particularly requested to see that in future due attention is paid to the rules referred to above and that all premiums are recovered strictly in advance.

H. EAGLES,
for *Secretary to the Insurance Committee.*

The 10th March 1893.

The exclusive right of transporting passengers, goods, vehicles, animals, &c., and of collecting tolls at the ferries specified in the annexed list will be put up to auction on the dates specified therein by the Amildars or Sheristadars of each Taluk, subject to the confirmation of the Deputy Commissioner.

2. The auction will begin at 12 noon on the days fixed and will, if necessary, be continued on the following days.

3. The ferries will be leased out for twelve months from 1st July 1893 to 30th June 1894.

4. The monopoly covers only so much of the river as lies within 500 yards on each side of the ferry. The Deputy Commissioner forbids both the transports, within these limits of passengers, &c., as aforesaid and the collection of tolls therefor except by, or on behalf of, the lessee or other person authorized by the Deputy Commissioner.

5. The accepted bidder shall, immediately on the declaration of the acceptance of his bid, produce, before the officer conducting the sale, one-fourth of the accepted bid ; failing which, the lease will be resold at the first purchaser's risk.

6. The accepted bidder shall, within 4 days from the date of the acceptance of the bid, execute, in favor of the Deputy Commissioner, a muchalika on a stamped paper with two tangible sureties for the due fulfilment of the contract and deliver it to the Amildar or Sheristadar as the case may be, and thereupon the Deputy Commissioner will authorize the executant of the said muchalika to enter into his contract. If the accepted bidder fails to execute and deliver the muchalika, the lease will be resold or otherwise disposed of at the defaulting bidder's risk, the deposit already made being forfeited to Government.

7. Where there are no boats or "Tokaras," they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer or Amildar.

8. Wherever boats and platforms are provided by Government, they shall be returned to Government on the termination of the lease or on being demanded by the Deputy Commissioner or other officer authorized by him on the same condition in which they were supplied to him, subject only to reasonable wear and tear. Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

9. The lessee shall be entitled to collect tolls at the rates specified in the list hereto annexed, and no fee or toll shall be demanded in the cases enumerated below :—

(*a*) Government mails, stores and remittances and all persons, animals and vehicles employed in carrying the same.

(*b*) All Government, officials including troops, travelling on duty and also in the case of Police officers, prisoners and property in their custody.

(*c*) All parties employed by Government servants to carry official reports, when so carrying such reports.

(*d*) Children under 12 years of age.

(*e*) The Deputy Commissioner is, at any time and for any length of time, at liberty to attach the ferry boats for the conveyance of troops, camp equipage and followers, and the contractors and their servants will be bound to give all reasonable assistance to ensure their speedy and safe carriage.

10. The balance of the contract amount shall be paid by the lessee to Government in nine monthly instalments commencing from July 1893, the deposit being credited to the last 3 "Khists." All payments shall be made in the Taluk Treasuries in which the ferry lies.

11. At each ferry, a board showing the rates and the weight to be carried should be put up in a conspicuous place by the lessee at all times when the ferry is worked, excepting those places where provision is made by the Deputy Commissioner.

12. The Deputy Commissioner reserves to himself the power of accepting or rejecting any bid without assigning any reasons therefor.

13. The contractor shall have a sufficient number of boats in readiness at either side of the ferry and shall take care that mails, travellers, passengers, animals, carriages, &c., are not unnecessarily delayed whether by day or night, but are ferried over with expedition.

14. Every passenger crossing a ferry is allowed to carry with him his luggage not exceeding in weight an Indian maund without any additional fee for the same. Any quantity in excess of the above will be liable to an additional fee of one anna for each Indian maund or less.

15. Should the contractor be found to have acted contrary to any of the above rules, he shall, for every breach of such rules, be liable to a fine not exceeding Rs. 50 or as the Deputy Commissioner may deem fit.

7. Where there are no boats or "Tokaras," they shall be provided by the lessees at all the ferries. The boats kept by the lessees shall always be of the size and quality approved by the Deputy Commissioner, Executive Engineer or Amildar.

Loss or damage arising from neglect or want of care shall be made good by the lessee. The lessee shall always be bound to keep the ferries or boats in good order and clean.

I. Read the Budget estimates of Receipts of District Funds for the year 1893-94.

The estimate for 1893-94, under one anna cess on Land Revenue, has been calculated with reference to the Jamabandi for 1891-92 and the details of assets upon which the cess is calculated are given in the enclosure A.

The estimates under 'Sale of stray cattle' and "Fines for cattle trespass" have been based upon the average of the actuals for the last 3 years as the actuals for 1891-92 was comparatively low, owing to the loss of cattle for want of fodder.

The amounts entered under other heads are based upon the actuals of 1891-92.

The amount of Rs. 450 entered under the head "Contribution" is expected to be realized from the raiyats for whose convenience the well works as shown in the Enclosures B and C, are proposed to be executed in 1893-94 in the Chitaldroog Taluk.

Thus the total estimated Receipts for the year 1893-94, under all heads, amount to Rs. 37,215 against Rs. 38,116 estimated for 1892-93.

The Board resolve that the estimate for 1893-94 be passed. The balance that may stand at the credit of the Board on the 1st July 1893 is estimated at Rs. 38,191 as shown in the margin. Thus the total amount available for expenditure during 1893-94 is Rs. 75,406.

		Rs.	As.	P.

Estimated Receipts for 1892-93	...	38,116	0	0
	Total..	83,142	0	0
Expenditure during 1892-93	...	44,951	0	0
Balance on 1st July 1893 ...	...	38,191	0	0

II. Read para 14 of Government Proceedings No. 11,470-4--L. 1063, dated 20th January 1892, stating that the request for the transfer of Chitaldroog-Benkipur Road from District Funds to Provincial Funds will be considered in the Public Works Department.

Resolved that as no final orders have as yet been passed on the subject, the request be renewed. Rs. 120 per mile is granted for this road, but owing to heavy traffic, the road cannot be kept in good order without an additional allotment for metalling the same and for increasing its breadth especially wherever there are embankments. This extra expenditure cannot be borne by the District Funds without interfering with other necessary works. If however the transfer cannot be sanctioned, the mileage allotment be raised from Rs. 120 to 140 from District Funds, as it is very desirable to keep the road in a better order.

III. Read the Budget estimates of Expenditure proposed by the Executive Engineer on account of Public Works to be executed in 1893-94.

Resolved that the same be approved with the following additions :—

(*a*) That a provision of Rs. 2,500 be made for the improvement of Challakere-Pavagada, road and of Rs. 1,500 for opening out Bidarkere-Bharmasagar road. Some work was done to the former last year by the Revenue Department (as Relief Work), and its completion is urgently called for. The latter is a Railway feeder and was sanctioned last year to be taken up as a Relief Work.

(b) That the mileage allotments for the marginally noted roads be raised from Rs. 30 to 50 in order to maintain them in a better condition, which is highly necessary.

Davangere ...Hadadi Road.
Harihar ...Harapanahalli Road.
Tarikere ...Hosdurga Road.

IV. Read the list of works proposed by the several Amildars to be carried out in the Revenue Department in 1893-94.

Resolved that a provision of Rs. 5,000 be made for the works described in the Enclosures B and C of the Budget.

V. Read estimate of Civil Charges debitable to District Funds for 1893-94.

The estimate is put down at Rs. 6,559 against Rs. 6,693 sanctioned for 1892-93.

A provision of Rs. 180 has been made for the pay of an additional Statistical Clerk to be newly entertained. There is but one Clerk now both for Municipal and Statistical works, whereas in other Districts these works are done not only by two different Clerks, but an additional Statistical Clerk has been sanctioned though tentatively. The works in these Departments have of late increased to such an extent that it has been found impossible to cope with the same with the existing establishment. The Deputy Commissioner's office itself requires strengthening.

The provision under medical scholarship for 1893-94 has been reduced to Rs. 521 from Rs. 611 in accordance with Government Proceedings No. 5832-43—149 of the 24th December 1887.

The provision for travelling allowance to Hospital Assistants in charge of Local Fund Dispensaries has been omitted for 1893-94, in accordance with Government Proceedings No. 8189-93—202-92, dated 13th December 1892, as the same is to be debited to Provincial Funds.

The provision for house rent for the Dispensary at Holalkere for 1893-94 has been omitted as a new Dispensary building has been constructed.

Considering the prespects of the season in this District at present, and the loss of cattle in the previous year for want of fodder, Government bulls for breeding purposes are not likely to be required during 1893-94. Hence no amount is entered under this head.

The other items call for no special remark.

Resolved that the Budget estimates of Civil Charges amounting to Rs. 6,559 be passed.

VI. The total amount of Receipts and Expenditure for the year 1893-94 as passed by the Board stand as follows :—

	Rs. As. P.
Receipts	37,215—0—0
Expenditure by Public Works Department.	
Original works	16,000
Repairs	14,320
Establishment	5,610
Tools and Plant	200
Reserve for minor works	2,680
	38,810
Expenditure by Revenue Officers.	
Original works	3,500
Repairs	1,150
Reserve	350
	5,000
Civil Charges	6,559
Total....	50,369
Excess....	13,154

Resolved that the excess amount of Rs. 13,154 over the estimated Receipts for 1893-94 be met from the balance of funds at the credit of the Board. The works provided for are of an urgent nature and cannot be conveniently postponed. If the expenditure is to be confined to the annual income, it is not likely that these works could be undertaken in the near future.

B. G. KRISHNAIENGAR,
Offg. Dy. Commissioner and President.

The reserve be reduced from Rs. 10,855 to Rs. 5,535.

(7) *Watchers for Travellers' Bungalows, &c.*—Except the Kankanhalli Bungalow and the Nelamangala Soldiers' shed, all Bungalows, in the District are maintained from the Provincial Funds. Rs. 250 being a moiety of the price of five bulls to be sold to raiyats, and Rs. 360 being the charge of maintenance of the 3 bulls supplied to the Board to be provided in the next year's Budget. Annas 4 for a covering may be charged, and Rs. 100 may be taken credit for in the next year's Budget. The Board considers this charge too heavy for the Board to bear and not quite a legitimate charge on the Funds.

III. Read.—Executive Engineer's docket No. 5227—1573 of 8th November 1892, forwarding an estimate for completing the Kankanhalli-Kodihalli road. It would be difficult to find funds next year to complete this work. Therefore the Board sanctions the re-appropriation of Rs. 2,500 this year as proposed, and raises the maintenance grant from Rs. 360 to Rs. 900 next year, and thereafter to enable the Public Works Department to complete the work gradually.

IV. Read.—Carrespondence regarding the stone parapet on the Bidarkuppe Tank bund :—

Estimated Receipts.

I. The usual Budget Estimates for the year 1893-94 from District Funds were placed before the Board duly prepared in the revised forms were passed. The estimated receipts being less than the actuals of 1891-92, it was explained to the Board that the actuals of 1891-92 show the collections of 15 months, but the estimate is formed on figures for 12 months

Civil Charges.

II. The Budget Estimate of civil charges was placed before the Board and were passed as modified by the Resolutions Nos. VII, VIII, IX, XII, XIII, XV, XVI.

Public Works Budget.

III. The Budget Estimate of Public Works prepared by the Executive Engineer together with the Talukwar Expenditure statement for 1891-92 in form E were placed before the Board and passed with the modifications resolved in Nos. 1 to 7.

I. Original Works, Addahalla Bridge.

(1.) Read correspondence ending with Chief Secretary's No. 95-11—L. F. 282-92, dated 28th ultimo, on the subject of the grant required for constructing a bridge across Addahalla stream on Bislé Ghat road stating that it is not possible to allot funds from District Funds for such large work as the one under reference and observing that no allotment can be made on account of the bridge from Local Fund General which is specially reserved for drinking water wells, &c., and that the estimated balance in favor of District Funds at the end of June 1893, is only Rs. 39,363 as shown and this will be reduced by Rs. 20,261, if the application made for incomplete works of 1891-92 should be sanctioned.

Resolved after discussion that the condition of the ordinary District Funds does not admit the meeting of any such extraordinary charges—that even the balance available under the District Fund General is not large enough to permit any such contributions being made out of it. Considering the numerous demands of a purely local nature that have to be made upon it and that for the sole reason that the funds at the disposal of the Board are too meagre to meet this requisition. Government be requested to have the work executed from the Provincial Public Works provisions. The Board desired further to record their opinion that the work is a very essential and important one and would further promote the trade between the Province and the western Collectorates of the Madras Presidency and that therefore Government may be pleased to pass early orders for its execution.

Mallipatna-Chengadihalli Road.

(2.) After discussing the necessity of opening out this road and concurring with the opinion of the Executive Engineer, the Board resolved that before making any provision in the Budget, the Coorg authorities may be communicated with whether they would co-operate and make the road in their Territories for a distance of about 4 miles.

Tunnels on Arkalgud, Gubbi and Bagur-Channaraypatna Roads.

(3.) As regards works Nos. 9 and 10 proposed by the Executive Engineer and included in the list of original works, the President explained to the Board that the construction of tunnels on these roads was approved of by Government and funds allotted from the Local Funds General, *vide* Government Proceedings No. 935-7—L. F. 63-92, dated 20th July last. The Board resolved that these may be struck off the Public Works Budget.

Annual Repairs of Roads.—The Saklespur-Aréhalli Road.

(4.) In the matter of provision of Rs. 100 per mile made for the road from Saklespur to Aréhalli the Board resolved to sanction this provision, in as much as the road which was formed in the famine year has now become a very important and necessary means of communication, consequent on the extension of coffee cultivation and that the road in its present condition cannot bear the traffic that now moves upon it and that therefore its improvement and maintenance is an urgent matter.

The extension of Saklespur-Aréhalli Road.

(5.) Proposed by Messrs. Chaudaiya, Amildar, and Tammaiya, Member, that the road from Saklespur to Aréhalli should be extended as far as Kagede to join with the Gonibide road. The Executive Engineer explained to the Board that the trace beyond Aréhalli to a point in the Gonibide road having not yet been determined, as there are 2 or 3 tracks, it was resolved that the matter of extension may be considered next year.

Railway Station Road, Banavar.

(6.) Read docket No. 945, dated 5th ultimo, from the Executive Engineer, requesting approval for maintaining the branch road from the Banavar-Belur road leading to Banavar Railway Station at an allotment of Rs. 50.

Resolved that the same may be included in the list of roads undergoing annual repairs.

Increase of allotment for Section of Hassan-Arsikere Road.

(7.) The President explained to the Board the necessity of raising the mileage allotment for the first ten miles of the Hassan-Tiptur road as far as Dudda, since there is much traffic on the road and that the present allotment is insufficient to meet the requirements.

Resolved with the concurrence of the Executive Engineer that the allotment of the road as far as Dudda, a distance of 10 miles be accordingly raised from Rs. 80 to Rs. 100 per mile.

Hanbaul-Devavrinda Road.

IV. Read Government Proceedings No. 5125-6—L. 634, dated 21st June 1892, on the subject of opening a road from Hanbaul to Devavrinda.

Resolved that as the fund at the disposal of the Board is very limited, the matter may be postponed for the present.

Road side.—Parapat on the Channapatna Tank Bund.

V. Read memo No. 1472, dated 26th September last, from the Executive Engineer, forwarding an estimate amounting to Rs. 1,567 for constructing parapet walls over the Channapatna tank bund leading to Holé-Narsipur, in accordance with the instructions of the Chief Engineer conveyed in the inspection note.

Resolved that there being no funds at the credit of the Board to meet this charge at present, the Government be asked to allot funds out of Local Funds General as the work is a very desirable one.

Necessity for additional Dispensaries.

VI. Read reports of the Amildars persuant to circular orders issued on the question of establishing additional Dispensaries in places required, with reference to the proposal of the Executive Engineer Mr. Nagavkar.

The marginally noted villages being populous ones and situated in sickly tracts and somewhat distant from the Taluk Dispensaries were selected as places where Dispensaries are necessary in the District (*viz.*, in Aréhalli of Belur Taluk and Konanur of Arkalgud Taluk) and that necessary application be made to Government in the matter.

	No. of Population.
Kananur	2568.
Arehalli	872.

Taking over of Rangacharlu's Memorial Chattram.

VII. Read Government Proceedings No. 4798-800—L. 581 of the 13th June 1892 on the subject of establishment required for the Rangacharlu's Memorial Chattram at Arsikere being added on to the list of Musafarkhanau.

Proposed by Mr. Madhava Rao, Amildar, that a sweeper and a watcher are necessary.

After some discussion the Board resolved to take over the building and further resolved that for a place like Arsikere, a Brahmin servant being also necessary provision may be made in the Civil charges Budget for a Brahmin servant on Rs. 7 in addition to a Sudra servant and Toti on Rs. 7 and 3 respectively.

Care taking of Dudda Musafarkhana.

VIII. A Musafarkhana and an Inspection Lodge at Dudda having already been built, a watcher was found necessary to look after the buildings and that in the current, one was appointed on Rs. 5 per month debiting half of his pay to the Public Works Department as proposed by the Executive Engineer.

Resolved that a provision of Rs. 60 at the rate of Rs. 5 per month for a watcher be made in the Budget as the moiety is paid from the same fund under two heads.

Care taking of Arsikere Musafarkhana.

IX. The Executive Engineer informed the Board that the new Musafarkhana near the Railway Station at Arsikere having been completed, a watcher or a sweeper may be appointed.

Proposed by Mr. Madhava Rao, Amildar, that both a watcher and a sweeper are very necessary.

Resolved that only a watcher on Rs. 7 may be appointed who should also keep the building cleanly swept, &c., and accordingly a provision of Rs. 84 be made.

Additional Hospital Assistant for Saklespur Dispensary.

X. Proposed by Mr. Srikantaiya, Member, that an additional Hospital Assistant is necessary for Saklespur Dispensary as only one Hospital Assistant at present cannot attend both the patients and the Coffee Planters who often require medical aid and call away the Hospital Assistant to their Estates.

The Assistant Surgeon informed the Board that an Additional Hospital Assistant is not necessary if a trained Compounder is appointed in lieu of the present one, who could attend in all ordinary matters.

Resolved that a qualified and trained Compounder may be appointed as soon as possible.

Conservancy of Shandy Bazaars.

XI. Mr. Krishnappa, Amildar of Arkalgud Taluk, proposed that for removing the sweepings of Shandy Bazaars some provision is necessary. Mr. Panchanatha Rao, General Assistant Commissioner, informed the Board that no charges need be incurred by Government and that one or two Raiyats may be allowed to remove and take away the sweepings for manure as is done in Halli Mysore of the Holé-Narsipur Taluk.

Resolved after discussion that where it can be arranged the right of taking away the sweepings for manure be sold, and where this arrangement cannot be made that a trial be given to the suggestion of Mr. Krishnappa, Amildar, and that the principal market places be swept by paid labour and such collection of rubbish be sold outright and that the cost of such labour debited against the provision made under "Sanitary and conservancy charges."

Scholarships for Midwives.

XII. Read Government Proceedings No. 7505-7—L. F. 255-92, dated 1st ultimo, sanctioning additional scholarships for 4 women to undergo training for midwives to Shimoga District at a cost of Rs. 480. Read also Government Proceedings No. 2256-9—L. 328, dated 9th May 1892, sanctioning 4 scholarships of like nature in the current year's Budget for this District.

Resolved that a provision of Rs. 240 be made in the Budget for 1893-94 for two more women to undergo training for the purpose so as to make 6 midwives for this District at the rate of one for each Taluk.

Supply of Breeding Bulls.

XIII. The President informed the Board that in accordance with the instructions contained in Government Proceedings No. 6999-7008—Cir. 723, dated 16th September 1891, 3 Amrut Mahal Bulls have been now received in the District and that another is expected shortly as intimated by the officer in charge of Amrut Mahal Department.

After discussion of the matter, the Board resolved that the Government be requested to order a supply of three more bulls which will make it 7 in all at the rate of one for each Taluk and Sub-Taluk

excepting the Manjarabad Taluk where it is not wanted being Malnad and accordingly a provision of Rs. 450 be made in addition to a sum of Rs. 384 to be made to meet the feeding charges of those already received, on the understanding that the average cost of maintaining each Bull would be about Rs. 8 per month.

Special Improvement in Cart Tracks.

XIV. Adverting to Government Proceedings No. 935-7—L. F. 93-92, dated 20th July last, sanctioning construction of some tunnels across certain village roads. the Board resolved to provide a lump sum of Rs. 2,000 for Special Improvement works of such tracks of which there are 7 in this District.

Rural Sanitation.

XV. Read para 3 of Government Proceedings No. 7259-66—L. 576, dated 25th September last, remarking that very little provision is made in the District Fund Budgets for conservancy and sanitation of rural parts and that such other charges as would tend to increase the health and comfort of people fall within the scope of District Funds.

The Amildars having misunderstood the object of the provision of Rs. 500 sanctioned in the current year's Budget to each of Taluks for the purpose, the President after explaining to them the above and defining the works falling under the head, desired the Amildars to arrange to spend the sum allotted in the current year's Budget.

The Board resolved that for 1893-94 a similar provision of Rs. 4,000 be made in the Budget of civil charges.

Provision for construction and repair of Cattle Pounds.

XVI. The President informed the Board that the provision of Rs. 800 for repairs of cattle pounds at the rate of Rs. 100 for each Taluk sanctioned in the current year's Budget, is not sufficient as there are numerous Buildings.

The Amildars of the Taluks represented to the Board that there are many pounds requiring urgent attention in the Taluks.

After some discussion in consideration of the Receipts from this source credited under District Funds, the Board resolved to allot a lump sum of Rs. 2,000 for the purpose for the District and desired the President to appropriate the sum in accordance with the requirements of Pounds in each Taluk.

Necessity for more Musafarkhanas.

The reserve be reduced from Rs. 10,855 to Rs. 5,535.

Rs. 250 being a moiety of the price of five bulls to be sold to raiyats, and Rs. 360 being the charge of maintenance of the 3 bulls supplied to the Board to be provided in the next year's Budget. Annas 4 for a covering may be charged, and Rs. 100 may be taken credit for in the next year's Budget. The Board considers this charge too heavy for the Board to bear and not quite a legitimate charge on the Funds.

III. Read.—Executive Engineer's docket No. 5227—1573 of 8th November 1892, forwarding an estimate for completing the Kankanhalli-Kodihalli road. It would be difficult to find funds next year to complete this work. Therefore the Board sanctions the re-appropriation of Rs. 2,500 this year as proposed, and raises the maintenance grant from Rs. 360 to Rs. 900 next year, and thereafter to enable the Public Works Department to complete the work gradually.

IV. Read.—Carrespondence regarding the stone parapet on the Bidarkuppe Tank bund :—

Estimated Receipts.

I. The usual Budget Estimates for the year 1893-94 from District Funds were placed before the Board duly prepared in the revised forms were passed. The estimated receipts being less than the actuals of 1891-92, it was explained to the Board that the actuals of 1891-92 show the collections of 15 months, but the estimate is formed on figures for 12 months.

Civil Charges.

II. The Budget Estimate of civil charges was placed before the Board and were passed as modified by the Resolutions Nos. VII, VIII, IX, XII, XIII, XV, XVI.

Public Works Budget.

III. The Budget Estimate of Public Works prepared by the Executive Engineer together with the Talukwar Expenditure statement for 1891-92 in form E were placed before the Board and passed with the modifications resolved in Nos. 1 to 7.

I. Original Works, Addahalla Bridge.

(1.) Read correspondence ending with Chief Secretary's No. 95-11—L. F. 282-92, dated 28th ultimo, on the subject of the grant required for constructing a bridge across Addahalla stream on Bislé Ghat road stating that it is not possible to allot funds from District Funds for such large work as the one under reference and observing that no allotment can be made on account of the bridge from Local Fund General which is specially reserved for drinking water wells, &c., and that the estimated balance in favor of District Funds at the end of June 1893, is only Rs. 39,363 as shown and this will be reduced by Rs. 20,261, if the application made for incomplete works of 1891-92 should be sanctioned.

Resolved after discussion that the condition of the ordinary District Funds does not admit the meeting of any such extraordinary charges—that even the balance available under the District Fund General is not large enough to permit any such contributions being made out of it. Considering the numerous demands of a purely local nature that have to be made upon it and that for the sole reason that the funds at the disposal of the Board are too meagre to meet this requisition. Government be requested to have the work executed from the Provincial Public Works provisions. The Board desired further to record their opinion that the work is a very essential and important one and would further promote the trade between the Province and the western Collectorates of the Madras Presidency and that therefore Government may be pleased to pass early orders for its execution.

Mallipatna-Chengadihalli Road.

(2.) After discussing the necessity of opening out this road and concurring with the opinion of the Executive Engineer, the Board resolved that before making any provision in the Budget, the Coorg authorities may be communicated with whether they would co-operate and make the road in their Territories for a distance of about 4 miles.

Tunnels on Arkalgud, Gubbi and Bagur-Channaraypatna Roads.

(3.) As regards works Nos. 9 and 10 proposed by the Executive Engineer and included in the list of original works, the President explained to the Board that the construction of tunnels on these roads was approved of by Government and funds allotted from the Local Funds General, *vide* Government Proceedings No. 935-7—L. F. 63-92, dated 20th July last. The Board resolved that these may be struck off the Public Works Budget.

Annual Repairs of Roads.—The Saklespur-Aréhalli Road.

(4.) In the matter of provision of Rs. 100 per mile made for the road from Saklespur to Aréhalli the Board resolved to sanction this provision, in as much as the road which was formed in the famine year has now become a very important and necessary means of communication, consequent on the extension of coffee cultivation and that the road in its present condition cannot bear the traffic that now moves upon it and that therefore its improvement and maintenance is an urgent matter.

The extension of Saklespur-Aréhalli Road.

(5.) Proposed by Messrs. Chaudaiya, Amildar, and Tammaiya, Member, that the road from Saklespur to Aréhalli should be extended as far as Kagode to join with the Gonibide road. The Executive Engineer explained to the Board that the trace beyond Aréhalli to a point in the Gonibide road having not yet been determined, as there are 2 or 3 tracks, it was resolved that the matter of extension may be considered next year.

Railway Station Road, Banavar.

(6.) Read docket No. 945, dated 5th ultimo, from the Executive Engineer, requesting approval for maintaining the branch road from the Banavar-Belur road leading to Banavar Railway Station at an allotment of Rs. 50.

Resolved that the same may be included in the list of roads undergoing annual repairs.

Increase of allotment for Section of Hassan-Arsikere Road.

(7.) The President explained to the Board the necessity of raising the mileage allotment for the first ten miles of the Hassan-Tiptur road as far as Dudda, since there is much traffic on the road and that the present allotment is insufficient to meet the requirements.

Resolved with the concurrence of the Executive Engineer that the allotment of the road as far as Dudda, a distance of 10 miles be accordingly raised from Rs. 80 to Rs. 100 per mile.

Hanlaul-Devavrinda Road.

IV. Read Government Proceedings No. 5125-6—L. 634, dated 21st June 1892, on the subject of opening a road from Hanbaul to Devavrinda.

Resolved that as the fund at the disposal of the Board is very limited, the matter may be postponed for the present.

Road side.—Parapat on the Channapatna Tank Bund.

V. Read memo No. 1472, dated 26th September last, from the Executive Engineer, forwarding an estimate amounting to Rs. 1,567 for constructing parapet walls over the Channapatna tank bund leading to Holé-Narsipur, in accordance with the instructions of the Chief Engineer conveyed in the inspection note.

Resolved that there being no funds at the credit of the Board to meet this charge at present, the Government be asked to allot funds out of Local Funds General as the work is a very desirable one.

Necessity for additional Dispensaries.

VI. Read reports of the Amildars persuant to circular orders issued on the question of establishing additional Dispensaries in places required, with reference to the proposal of the Executive Engineer Mr. Nagavkar.

The marginally noted villages being populous ones and situated in sickly tracts and somewhat distant from the Taluk Dispensaries were selected as places where Dispensaries are necessary in the District (*viz.*, in Aréhalli of Belur Taluk and Konanur of Arkalgud Taluk) and that necessary application be made to Government in the matter.

	No. of Population.
Kananur	2568.
Arehalli	872.

Taking over of Rangacharlu's Memorial Chattram.

VII. Read Government Proceedings No. 4798-800—L. 581 of the 13th June 1892 on the subject of establishment required for the Rangacharlu's Memorial Chattram at Arsikere being added on to the list of Musafarkhanau.

Proposed by Mr. Madhava Rao, Amildar, that a sweeper and a watcher are necessary.

After some discussion the Board resolved to take over the building and further resolved that for a place like Arsikere, a Brahmin servant being also necessary provision may be made in the Civil charges Budget for a Brahmin servant on Rs. 7 in addition to a Sudra servant and Toti on Rs. 7 and 3 respectively.

Care taking of Dudda Musafarkhana.

VIII. A Musafarkhana and an Inspection Lodge at Dudda having already been built, a watcher was found necessary to look after the buildings and that in the current, one was appointed on Rs. 5 per month debiting half of his pay to the Public Works Department as proposed by the Executive Engineer.

Resolved that a provision of Rs. 60 at the rate of Rs. 5 per month for a watcher be made in the Budget as the moiety is paid from the same fund under two heads.

Care taking of Arsikere Musafarkhana.

IX. The Executive Engineer informed the Board that the new Musafarkhana near the Railway Station at Arsikere having been completed, a watcher or a sweeper may be appointed.

Proposed by Mr. Madhava Rao, Amildar, that both a watcher and a sweeper are very necessary.

Resolved that only a watcher on Rs. 7 may be appointed who should also keep the building cleanly swept, &c., and accordingly a provision of Rs. 84 be made.

Additional Hospital Assistant for Saklespur Dispensary.

X. Proposed by Mr. Srikantaiya, Member, that an additional Hospital Assistant is necessary for Saklespur Dispensary as only one Hospital Assistant at present cannot attend both the patients and the Coffee Planters who often require medical aid and call away the Hospital Assistant to their Estates.

The Assistant Surgeon informed the Board that an Additional Hospital Assistant is not necessary if a trained Compounder is appointed in lieu of the present one, who could attend in all ordinary matters.

Resolved that a qualified and trained Compounder may be appointed as soon as possible.

Conservancy of Shandy Bazaars.

XI. Mr. Krishnappa, Amildar of Arkalgud Taluk, proposed that for removing the sweepings of Shandy Bazaars some provision is necessary. Mr. Panchanatha Rao, General Assistant Commissioner, informed the Board that no charges need be incurred by Government and that one or two Raiyats may be allowed to remove and take away the sweepings for manure as is done in Halli Mysore of the Holé-Narsipur Taluk.

Resolved after discussion that where it can be arranged the right of taking away the sweepings for manure be sold, and where this arrangement cannot be made that a trial be given to the suggestion of Mr. Krishnappa, Amildar, and that the principal market places be swept by paid labour and such collection of rubbish be sold outright and that the cost of such labour debited against the provision made under "Sanitary and conservancy charges."

Scholarships for Midwives.

XII. Read Government Proceedings No. 7505-7—L. F. 255-92, dated 1st ultimo, sanctioning additional scholarships for 4 women to undergo training for midwives to Shimoga District at a cost of Rs. 480. Read also Government Proceedings No. 2256-9—L. 328, dated 9th May 1892, sanctioning 4 scholarships of like nature in the current year's Budget for this District.

Resolved that a provision of Rs. 240 be made in the Budget for 1893-94 for two more women to undergo training for the purpose so as to make 6 midwives for this District at the rate of one for each Taluk.

Supply of Breeding Bulls.

XIII. The President informed the Board that in accordance with the instructions contained in Government Proceedings No. 6999-7008—Cir. 723, dated 16th September 1891, 3 Amrut Mahal Bulls have been now received in the District and that another is expected shortly as intimated by the officer in charge of Amrut Mahal Department.

After discussion of the matter, the Board resolved that the Government be requested to order a supply of three more bulls which will make it 7 in all at the rate of one for each Taluk and Sub-Taluk

excepting the Manjarabad Taluk where it is not wanted being Malnad and accordingly a provision of Rs. 450 be made in addition to a sum of Rs. 384 to be made to meet the feeding charges of those already received, on the understanding that the average cost of maintaining each Bull would be about Rs. 8 per month.

Special Improvement in Cart Tracks.

XIV. Adverting to Government Proceedings No. 935-7—L. F. 93-92, dated 20th July last, sanctioning construction of some tunnels across certain village roads, the Board resolved to provide a lump sum of Rs. 2,000 for Special Improvement works of such tracks of which there are 7 in this District.

Rural Sanitation.

XV. Read para 3 of Government Proceedings No. 7259-66—L. 576, dated 25th September last, remarking that very little provision is made in the District Fund Budgets for conservancy and sanitation of rural parts and that such other charges as would tend to increase the health and comfort of people fall within the scope of District Funds.

The Amildars having misunderstood the object of the provision of Rs. 500 sanctioned in the current year's Budget to each of Taluks for the purpose, the President after explaining to them the above and defining the works falling under the head, desired the Amildars to arrange to spend the sum allotted in the current year's Budget.

The Board resolved that for 1893-94 a similar provision of Rs. 4,000 be made in the Budget of civil charges.

Provision for construction and repair of Cattle Pounds.

XVI. The President informed the Board that the provision of Rs. 800 for repairs of cattle pounds at the rate of Rs. 100 for each Taluk sanctioned in the current year's Budget, is not sufficient as there are numerous Buildings.

The Amildars of the Taluks represented to the Board that there are many pounds requiring urgent attention in the Taluks.

After some discussion in consideration of the Receipts from this source credited under District Funds, the Board resolved to allot a lump sum of Rs. 2,000 for the purpose for the District and desired the President to appropriate the sum in accordance with the requirements of Pounds in each Taluk.

Necessity for more Musafarkhanas.

XVII. Proposed by Messrs. Panchanatha Rao, General Assistant Commissioner, Subbarayalu Naidu, Parthasaradaiengar, Madhava Rao, Amildars, and Tammaiya, Member, that Musafarkhanas are necessary in the following places :—

(1.) Sulédévarahalli between Hassan and Belur.
(2.) Chikkanahalli between Saklespur and Belur.
(3.) Yadagaudanahalli between Bheria and Holé-Narsipur.
(4.) Kasaba Holé-Narsipur.
(5.) Nyamanahalli between Hassan and Holé-Narsipur.
(6.) Kanakatté in Arsikere Taluk.

The Board recognizing the necessity for Musafarkhanas in the above places resolved that these may be taken up when funds permit.

Well in Cart stand in Channarayapatna.

XIX. Mr. Vasudeva Rao, Acting Amildar of Channarayapatna, represented to the Board that a well in the compound of the newly built Bandy-stand in Channarayapatna Kasaba is very much needed for travellers as the tank is not within easy reach for cartmen.

Resolved that a sum of Rs. 300 be provided in the Budget for the purpose under works to be undertaken by the Revenue Department.

Proposed by the Executive Engineer that the pay of the sweeper of the Ulavi Inspection Lodge paid in the proportion of ⅓rd (Rs. 1—5—4) per mensem from Local Funds and ⅔rd (Rs. 2—10—8) from the Imperial Funds, be entirely charged to the Local Funds.

Proposed by the Sagar Sub-Division Officer that the pay of the sweepers belonging to the Bungalows and Musafarkhanas noted below may be raised as follows :—

Sorab Bungalow sweeper from Rs 4 to 5 per mensem.

Kallurkatte Bungalow from 4 to 5 per mensem.

Benavalli Bungalow from Rs. 4 to 5 per mensem.

Godekoppa Musafarkhana from 2 to 4.

Resolved that necessary provision be made in the Budget subject to the approval of Government.

A provision of Rs. 180—0—0 is made in the Budget for two midwives at Rs. 7½ per mensem being the moiety of their pay in addition to the 2 already sanctioned by Government in Proceedings No. 13383-5—L. F. 55-92, dated 3rd February 1893, as they are likely to pass this year, and have to be employed on their return.

Proposed by the Sagar Sub-Division Officer that a Local Fund Circle for the Sub-Division may be formed with its Head-quarters at Sagar.

The Executive Engineer seconded the proposition.

The Board thinks that it is very convenient that the Meetings of the Members residing in the Sub-Division should be held at its Head-quarters to consider the requirements of the three Taluks comprised thereof. There is now only a single Non-Official Member on the Board, who resides within the Sub-Division. A few more Non-Official Members will have to be appointed and the necessary point settled before a separate Circle is formed, especially the allotment of funds, with due consideration of the requirements not of the three Taluks in the Sub-Division, but also of the other five Taluks in the District comprising both Maidan and Malnad.

The question has to be fully considered if the Government are pleased to decide that a separate Circle for the Sub-Division should be formed.

REGISTRATION DEPARTMENT.

To—The Registering Officers in Mysore, Circular No. 13 *of* 1892-93, *dated, Bangalore,* 10*th May* 1893.

With the sanction of the Government conveyed in Government Proceedings No. 16491—J. 917, dated 22nd March 1893, the Inspector General of Registration has the honor to state that the prohibition contained in the marginally noted Circulars regarding the registration of documents evidencing alienations by sale, mortgage or otherwise of *Inam lands* is not strictly legal, and that it is hereby withdrawn.

No. 1—15, dated 9th February 1866.
No. 21—17, dated 5th February 1870.
No. 25— 4, dated 29th June 1870.
No. 2, dated 2nd May 1885.
No. 8, dated 4th September 1886.

2. As the registration of a document is simply an evidence of its execution and does not and cannot confer any right which the document itself cannot convey, it appears to the undersigned that a Registering Officer cannot well refuse to register a document presented to him except for reasons mentioned in the Registration Act itself.

3. As it is however desirable that a record should remain with the Executive Revenue Officers of all unauthorized alienations, copies of such of the documents presented for registration as are opposed to the instructions conveyed in the above mentioned Circulars, should be forwarded to the Deputy Commissioner of the District to which the Registering Officer belongs.

C. MEENACSHAIYA,
Inspector General of Registration in Mysore.

Mr. Karve observed that the tunnels were constructed of rough slabs long ago, and that separate estimates will have to be made for building them again pakka, as the ground is scoured and the walls of rough stones do not stand firm. Accordingly orders have been issued to the Amildars of the Taluks of the Sub-Division to propose the names of new members in their stead.

2. Read the Budget Estimates of Receipts and Expenditure of District Funds for 1893-94 and also the Budget Estimates of the previous year.

ESTIMATED RECEIPTS.

I.—One anna cess on Land Revenue (Statement A.)

3. The actual receipts of 1891-92, consisting of the arrears of previous year after deducting 24 per cent set apart for education is Rs. 36,792—2—8, and the estimated receipts of 1892-93 is Rs. 38,652 and of 1893-94 is Rs. 38,963. Comparing the estimates of 1893-94 with the actuals of 1891-92, it will be seen that there is a small increase of Rs. 170—13—4, and with the estimate of 1892-93, the increase is Rs. 308. This small increase does not call for any special explanation.

II.—Sale of stray cattle and fines for cattle trespass and feeding charges of impounded cattle.

4. Actual receipts under the items of sale and fine for the year 1891-92 are Rs. 1,662—7—2 and the estimate for 1892-93 is Rs. 1,606 and for 1893-94 is Rs. 1,606. Comparing the estimate of 1893-94 with the actuals of 1891-92, it will be observed that there is a decrease of Rs. 56—7—2 and it is equal to the estimate of 1892-93.

Fees collected on account of feeding charges of impounded cattle were not included in the Budget estimate in the previous years, but under the Government Proceedings No. 14603-11—L. 1059, dated 17th March 1892, they have been included in the Budget for 1893-94, the amount being Rs. 138.

III.—Ferry Collection.

5. The actual receipts of 1891-92 is Rs. 206—15—0 and the estimate of 1892-93 is Rs. 254, and of 1893-94 is Rs. 210. Comparing the estimate of 1893-94 with the actuals of 1891-92, there is a very small increase of Rs. 3—1—0.

IV.—Fees from the 3rd Class Travellers' Bungalows.

6. Rs. 10 have been collected during the year 1891-92 and the estimate of 1892-93 is Rs. 10 and of 1893-94 is the same.

7. The total estimate of receipts under all heads for the year 1893-94 are Rs. 40,931 and the opening balance on 1st July 1893 at the credit of the Board is Rs. 24,152—10—3¾. The total amount at the disposal of the Board for 1893-94 is Rs. 65,083—10—3¾.

PROPOSED EXPENDITURE.

Public Works (Statements B and C.)

8. The committee resolved that Rs. 47,500 should be spent on Public Works; of this sum Rs. 2,800 should be spent by Revenue authorities in sinking new wells and in repairing the Musafarkhana at Honakere, Nagamangala Taluk, and in improving the well near the said Musafarkhana.

9. The Executive Engineer of the French Rocks Division, in placing for the approval of the committee an estimate amounting to Rs. 51,450, recommended that the rates for repairing the Mandya-Bannur road and Seringapatam, Sosile-Sivasamudram road should be raised from Rs. 50 to 60 per mile and of Mysore-Mahadevapura road from Rs. 40 to 60, as they are in a very bad condition and require special repairs in most parts. The committee agreed to do so and raised the estimate to Rs. 55,831 and passed it.

Civil charges (Statement D.)

10. The estimate sanctioned under this head for 1892-93 is Rs. 7,903 and the proposed estimate for 1893-94 is Rs. 8,879. The increase is Rs. 1,786. The charges under several items of this head have been altered, some remain as before, and while others have been added as shown below :—

(1). Amount sanctioned under the item of Hospital and Dispansaries for 1892-93 is Rs. 2,559, but the proposed estimate for 1893-94 is Rs. 3,312. It will be seen that there is an increase of Rs. 753, as the Municipalities of Mandya, Nagamangala and French Rocks being too poor to bear the usual charge of one-third of the cost of the Dispensaries of these places, the whole cost is to be defrayed from District Funds as per Government Proceedings No. 12014—L. F. 1171, dated 24th January 1892, and the entire cost of maintaining the Dispensary at Maddur also to be defrayed from District Funds.

(2). The estimate sanctioned under the item Sweeper's pay for the Third Class Travellers' Bungalows, Musafarkhanas, &c., for the year 1892-93 is Rs. 468, and the proposed estimate for 1893-94 is Rs. 348. The decrease is Rs. 120. The Travellers' Bungalow at French Rocks being set apart as for the Sub-Division Officer's quarters, the pay of the sweeper Rs. 60 per annum has been struck off the Budget. The Dispensary at Maddur being proposed to be located in the old Taluk Cutcherry, there in which is also located the Police station, there is no necessity of watchman. His pay Rs. 60 is therefore struck off the Budget.

(3). Provision of Rs. 120 has been made for midwife entertained as per Deputy Commissioner's docket No. 986, dated 31st March 1892. One-half of her pay is to be debited to District Funds and the other half to Municipal Funds. The Deputy Commissioner observed in his Memo No. 322, dated 29th October 1892, that the pay of midwife is fixed at Rs. 15 and not Rs. 20. The Senior Surgeon in his docket No. 3276 of 25th October 1892 stated that the midwife was appointed on a monthly salary of Rs. 20 under the order of Government conveyed in their Proceedings No. 14115-24—Cir. 300, dated 18th March 1891. The Deputy Commissioner is addressed on the subject ; final orders has not as yet been received.

(4). Provision of Rs. 3,200 is made for conservancy and sanitation in rural parts of the Taluks of the Sub-Division. The villages and localities where such measures are necessary will be decided upon after inspection and detail estimates will follow.

(5). Provision of Rs. 1,059 is made under the item of Cattle-pounds, *i. e.*, repairs of pounds, feeding charges of impounded cattle and remuneration for pound-keepers, as laid down in Government Proceedings No. 14603-11—L. 1059, dated 17th March 1892. The gross receipts are credited to District Funds.

(6). Under the item Miscellaneous expenditure, the estimate is raised from Rs. 50 to 100, as the actual expenditure under this head for 1891-92 is Rs. 73—7—3.

(7). Other items do not call for any remarks.

11. The amount at the disposal of the Board, as stated in para 7 of this report, is Rs. 65,083—10—3¾, and the estimated expenditure under all heads amounts to Rs. 56,379. The probable balance at the end of the year 1893-94 will be Rs. 8,704—10—0¾.

REGISTRATION DEPARTMENT.

To—The Registering Officers in Mysore, Circular No. 13 *of* 1892-93, *dated, Bangalore,* 10*th May* 1893.

No. 1—15, dated 9th February 1866.
No. 21—17, dated 5th February 1870.
No. 25— 4, dated 29th June 1870.
No. 2, dated 2nd May 1885.
No. 8, dated 4th September 1886.

With the sanction of the Government conveyed in Government Proceedings No. 16491—J. 917, dated 22nd March 1893, the Inspector General of Registration has the honor to state that the prohibition contained in the marginally noted Circulars regarding the registration of documents evidencing alienations by sale, mortgage or otherwise of *Inam lands* is not strictly legal, and that it is hereby withdrawn.

2. As the registration of a document is simply an evidence of its execution and does not and cannot confer any right which the document itself cannot convey, it appears to the undersigned that a Registering Officer cannot well refuse to register a document presented to him except for reasons mentioned in the Registration Act itself.

3. As it is however desirable that a record should remain with the Executive Revenue Officers of all unauthorized alienations, copies of such of the documents presented for registration as are opposed to the instructions conveyed in the above mentioned Circulars, should be forwarded to the Deputy Commissioner of the District to which the Registering Officer belongs.

C. MEENACSHAIYA,

Resolution.—Mr. Subba Rao and Mr. Leonard drew attention to the large balance as shown in the monthly account current and feared it was due to neglect on the part of the Collector. The President explained going into figures that most part of the so called balance was yet to fall due and that, therefore, he could not see any sensible neglect on the part of the Collector. Mr. Venkataramaiya enquired and was informed how much could be realized under Octroi during the remaining months of the year. Returns, &c., recorded.

II. Letter No. 55, dated 10th March 1893, from the Senior Surgeon and Sanitary Commissioner, Mysore Government, as regards the increase to the present pay of the Vaccinators employed by the Municipality.

Resolution.—Elizabeth to be promoted to be the Senior Vaccinator to enable her to get Rs. 15 a month. Rajappa to be 2nd Vaccinator and to get Rs. 12, Aralappa has not one year's service and he need not get any increase.

III. President's Memo, dated 16th March 1893, regarding the removal of the present Slaughter house, on account of its close proximity to the new Taragupete and Western Extension, with two estimates.

Resolution.—The Board considers it very desirable and necessary to remove the Slaughter house and Mutton and Fish Markets to another locality and appoint a Sub-Committee composed of the President, Mr. Scaldwell and Dr. Choksi to report on it.

The estimates for Rs. 502 for such repairs as are absolutely necessary is sanctioned.

IV. Nomination of Members for the Sub-Committee for auditing the monthly accounts as per terms of the Resolution, dated 20th January last.

Resolution.—Proposed by Mr. Venkatasami Naidu that one member instead of a Sub-Committee be appointed auditor. His ground is that it is difficult to get together a Committee. Carried. Mr. Venkatasami Naidu to be appointed for the next quarter.

V. Memo No. 16312—L. F. 38-92, dated 3rd April 1893, from the Chief Secretary to the Government of Mysore *in re* the cost of constructing the Fort main drain.

Resolution.—The work was carried out without the Board having an opportunity of being heard. If the Board had had to decide the question it would have considered its means before carrying it out. The funds at its disposal are limited and the calls on it especially as regards water-supply and roads are numerous, pressing and urgent. The Board, therefore, resolves to request the Government to relieve it from this charge or as much of it as it considers meet.

It was also resolved that the Vice-President, Mr. Cameron and Dr. Choksi be requested to form into a Sub-Committee to consider and report on the question of the main drain.

VI. Proceedings of the Government of Mysore No. 16298-301—L. F. 187-92, dated 3rd April 1893, regarding the pay and carriage allowance of the Vice-President.

Resolution.—Mr. Leonard after a lengthy speech, explanatory of the proposition, proposes that the Government be requested to increase the allowance to Rs. 100. Salary and allowance to be paid by the Municipality. Carried unanimously.

Deferred Proposition.

VII. Letter, dated 1st March 1893, from the Proprietor of Khasim-ul-Akbar *in re* publication of Municipal Advertisements.

,, Gulbahar Sha Sahib of Chitaldroog.
,, Siddaramaiya of Holalkere.

Absent.

Mr. Channappa of Jagalur.
Mr. M. Venkata Rao of Davangere.
Two Vacancies.

I. The provision of Rs. 500 sanctioned in the District Fund Budget of this District for the current year on account of Sanitary charges, not having been utilized, the members were asked to propose works for the same. The Amildars of the several Taluks proposed to carry out the works shown in the enclosed list for the purpose of improving the sanitation of certain populous villages in the Taluks.

(*a*) Resolved that the works be passed and the cost thereof met from the said amount of Rs. 500.

(*b*) Further resolved that Government be asked to raise the provision of Rs. 1,000 made in the District Fund Budget of this District for 1893-94 (submitted with this Office No. 312—102, dated 31st January 1893) under conservancy and sanitary charges to Rs. 5,000 to be spent on works calculated to increase the health and comforts of the people in rural parts of the District. Very little has as yet been done in this direction. Every Taluk has a few large and populous villages which are in a very insanitary condition. These should in the opinion of the Board be taken in hand and improved as early as possible. The Proceedings of Government No. 7259-66—L. 576, dated 25th September 1891, are very clear. To give effect to the object therein mentioned, a much larger grant is necessary than the very small sum of Rs. 1,000 provided in the next year's Budget, which is now before the Government. The members of the Board strongly urge the necessity of an increased grant being sanctioned.

II. Read statement showing the details of Receipts, Expenditure and Balance of District Funds of this District from July 1892 to January 1893.

	Rs.	As.	P.
Balance on 1st July 1892	45,026	0	10
Receipts under all heads	3,498	9	7
Total....	48,524	10	5
Expenditure	24,442	9	5
Balance at the end of January 1893	24,082	1	0

Resolved that the same be passed.

III. Read letter No. 148, dated 21st April 1893, from the Hospital Assistant in charge of the Local Fund Dispensary at Holalkere, requesting that a Midwife be appointed for that station, as the services of one are badly wanted there.

Resolved that until the two pupils now under instruction for this District become qualified and are appointed Midwives, the Hospital Assistant be told that he might, whenever necessary, send for the Midwife now at Davangere. Much delay and inconvenience are not likely to arise from this arrangement in asmuch as there is Railway communication between Davangere and Holalkere.

IV. Read docket No. 153, dated 14th April last, from the Executive Engineer of this Division, requesting approval to the excess outlay of Rs. 921, over the sanctioned estimate of Rs. 5,000 for constructing a bridge of one arch in ⅔ mile of Chitaldroog-Benkipur Road.

Resolved that the excess outlay referred to be sanctioned.

V. The new Musafarkhana near the Holalkere Railway Station built at a cost of over Rs. 4,000 being now ready to be handed over to the Revenue Department, resolved that provision be made in the next year's Budget for the appointment of a watchman on Rs. 4 a month. He will be both a Caretaker and Sweeper. The marginally named Musafarkhanas in the District are not properly swept and looked for, the reason being that the pay of the watchmen is so law as Rs. 2 a month. The Board are of opinion that this salary is by no means attractive and that it should at least be raised to Rs. 3. Provision for this must also be made in the Budget for 1893-94. These two items necessitate the increase of the Budget provision from Rs. 924 to Rs. 1,128.

Read the District Fund Budget sanctioned for the year 1892-93 and also the statements showing the amount spent on each work up to end of February 1893 ; progress satisfactory and recorded.

PUBLIC WORKS TO BE EXECUTED BY PUBLIC WORKS DEPARTMENT.

I.—Original Works.

The amount sanctioned under this head as per Government Proceedings No. 5331-52—853-74, dated 9th December 1892, is Rs. 16,500 ; of this, Rs. 7,209—14—11 was spent up to end of February 1893 on works already sanctioned. With regard to opening out Krishnarajpete-Beriya road passed in the former meeting mentioned in the statement, the Executive Engineer explains that the project of opening out the road was not sanctioned by the Chief Engineer and that the allotment therefor may be appropriated for extending Mandya-Melkote road and for putting in perfect order the portion of the road already in existence. The Committee passed the proposal.

The Executive Engineer also requested the Committee to select some important works that may be executed out of Rs. 1,000 sanctioned for Miscellaneous Public Improvements. The Amildar of Mandya proposed that a well 10 feet in diameter with pulleys may be sunk at Mandya or at a suitable spot near the Taluk Cutcherry. The Committee passed the proposal, the cost being met from the District Funds as there was no money in the Municipality.

The Civil Surgeon having explained to the Committee the benefits of a pump used for drawing water from wells instead of pulleys, the President proposed that a pump may be sanctioned to the soda water, well which is the only good drinking water at French Rocks, but is now being corrupted by letting into it all sorts of ropes and pots. The Executive Engineer seconded the proposal and the Committee resolved that the Executive Engineer may be requested to purchase a pump at a moderate cost and fit it to the well.

Mr. Sitaramaiya of Malvalli proposed that a road from Malvalli to Muttanahalli *viâ* Marehalli tank bund may be opened and joined to Seringapatam, Sosile-Sivasamudram road as the distance is only 8 miles and it would facilitate traffic. The Amildar of Malvalli seconded the proposal. The Committee resolved that the subject may be taken up and disposed of at the next Budget meeting.

II.—Repairs.

Under this head Rs. 24,000 was sanctioned. The amount spent up to end of February 1893 is Rs. 15,625—4—11 and the progress of works is satisfactory.

The Amildar of Mandya proposed that the pond (Gajendra Kola) which is beyond the Municipal limits at Maddur may be improved by clearing the silt, as it was very useful to travellers as well as to inhabitants of the place during the hot weather.

The Amildar of Nagamangala proposed the same regarding the well near Subedar's Chattram as it is very useful for drinking water not only to travellers but also to the villagers.

The President seconded these proposals and stated that the cost may be met from Reserve Grant under repairs. The Committee resolved that these repairs may be carried out by Public Works Department.

In the same manner the Executive Engineer proposed the deepening of the Panakadabhavi and fixing a pulley to it at French Rocks.

Public Works to be executed by Revenue Officers.

The amount allotted under this head as per Government Proceedings No. 11458-62—L. 1061, dated 20th January 1892, is Rs. 2,760—0—0. Of this, Rs. 706—10—3 has been sanctioned for sinking wells. The works are progressing satisfactorily.

The Sub-Division Officer proposed that a parapet wall with a pulley may be constructed to the drinking water well (General Bavadi) at French, Rocks which as it now stands level with the ground, is dangerous to the public and the cost may be met from General Savings as there was no money in the Municipality.

The Executive Engineer seconded the proposal. The Committee passed it.

The Amildar of Mandya proposed that the amount sanctioned for the improvement of the pond at Kothathi as desired by the villagers for supplying good drinking water to them may be appropriated for sinking a new drinking well. The President seconded the proposal as he considered that the villagers require the pond simply to wash their sheep in it and any money spent on it will not improve the health of the people. Therefore a new drinking well which can be dug with the same amount is far better. The Committee passed the proposal.

Mr. Sitaramaiya of Malvalli proposed that the tank of Upala over which the Seringapatam, Sosile-Sivasamudra road runs, being narrow, entails great danger when two carts meet at the same time upon it, specially as the bund is not railed. The Committee resolved that the subject be referred to the Deputy Commissioner of Mysore as the tank in question belongs to T. Narsipur Taluk.

Read the report from Rangaiengar, Non-Official Member of Krishnarajpete Taluk, proposing the following works to be undertaken.

(1) Constructing a village Chavadi and a Kasaba Chavadi both at Krishnarajpete Kasaba.
(2) Constructing a flight of steps to the Krishnarajpete Tank.
(3) Constructing a Musafarkhana near Kagehalla where a great many travellers and carts halt invariably during nights.
(4) Sinking a well for drinking water at Krishnarajpete.

The resolution made by the Committee on each of the points is as follows:—

(1) The owner of the site selected for the purpose refused to give it up free and as there are no funds available the works cannot now be undertaken.
(2) There are no Municipal Funds available for the purpose and there is no urgent necessity for any such steps at present. The inhabitants can now descend into the tank easily and can resort to the channel below also. In 1891-92 when the similar recommendation was made it was rejected by the Government on the ground that the Municipality should bear cost.
(3) There is no use in constructing a small Kasaba building here which will soon be destroyed. A good mantapam vasare is what is required. This may be considered at the next Budget meeting.
(4) The estimate received from the Amildar has been submitted to the Deputy Commissioner.

Civil Charges.

The amount sanctioned under this head is Rs. 7,093, as per original estimates and as per supplemental Budget submitted for sanction is Rs. 1,654, and the total Rs. 8,747. Of this, a sum of Rs. 5,757 has been provided for Hospital Dispensaries, Vaccination, &c., charges and Rs. 2,990, for conservancy and sanitation in rural parts of the Taluks of the Sub-Division.

Out of the former amount, a sum of Rs. 1,632—6—8 has been expended up to the close of December 1892 as per Comptroller's account. Out of the latter sum, none has yet been spent. But estimates amounting to Rs. 750—0—0 for the conservancy and sanitation of Halagur, Kirgaval and Kallakuni villages of the Malvalli Taluk have been sanctioned by Government and needful orders have been issued to the Amildar to carry out the works. And a similar estimate for Rs. 944—0—0 for improving the drainage of Kikkeri, Krishnarajpete Taluk, has been submitted to the Deputy Commissioner to obtain the sanction of the Government.

ANNUAL EXAMINATION OF REVENUE AND JUDICIAL DEPOSIT ACCOUNTS AND DETAILED STATEMENTS NOS. 4 AND 5, LOCAL REMITTANCES.

To—The Deputy Commissioners of Districts, Treasury Department, and the Officer in charge of the Huzur Treasury, Bangalore, Circular Letter No. 6048—51, *dated* 19*th May* 1893.

With reference to standing orders, the Comptroller has the honor to request that the Deputy Commissioners will be good enough to scrutinize their revenue and judicial deposit accounts and the detailed statements of local remittances under entries Nos. 4 and 5 and take *immediate measures* for clearing them off in the accounts for June next.

(1) Deposit items not exceeding one rupee unclaimed for 12 months, (2) balances not exceeding one rupee partly repaid during the year, (3) deposits of whatever amount unclaimed for more than three complete account years ending 30th June 1893, should be credited to Government.

The sale proceeds of stray cattle kept in deposit for three months and unclaimed within that time should be transferred to credit of the "Municipal" or "District Funds" to which they belong.

Fines and all other items improperly credited to deposits or local remittances should likewise be transferred to credit of the heads to which they belong.

The District Treasury Officers aided by their Head Accountants should personally scrutinize the entries under the head Local Remittances Nos. 4 and 5, which, it is observed, contain many items belonging to revenue and other heads. They should be rectified by transfers in the District Treasury accounts and the Amildars should be instructed to correct their accounts accordingly.

Detailed statements of all items transferred under these instructions should be appended to the Treasury accounts for June 1893, which should contain the corresponding credits.

ANNUAL GOVERNMENT SAVINGS' BANK ACCOUNTS.

To—The Deputy Commissioners, Treasury Department, Circular Letter No. 6094—52, *dated* 25*th May* 1893.

The Comptroller has the honor to request that Deputy Commissioners will instruct their Treasury Officers to furnish to this office by the 20th August, the "Dead Accounts" and the Annual Return of Savings' Bank transactions for the year 1892-93, as laid down in Chapter 19, Rules 46, 47 and 51 of the Civil Account Code. Care should be taken to note the occupation of each depositor, and that no transfers are made of accounts from the District or Taluk to another during the latter half of June 1891, *vide* Chapter 19, Rule 56, of the Civil Account Code, 3rd Edition. It is further requested that in the case of accounts which are transferred during 1892-93, the month and the treasury from and to which the account was transferred might be noted in the column of remarks.

E. R. SUBRAYAR,
Comptroller.

REGISTRATION DEPARTMENT.

To—The Registering Officers in Mysore, Circular No. 13 *of* 1892-93, *dated, Bangalore,* 10*th May* 1893.

With the sanction of the Government conveyed in Government Proceedings No. 16491—J. 917, dated 22nd March 1893, the Inspector General of Registration has the honor to state that the prohibition contained in the marginally noted Circulars regarding the registration of documents evidencing alienations by sale, mortgage or otherwise of *Inam lands* is not strictly legal, and that it is hereby withdrawn.

No. 1—15, dated 9th February 1866.
No. 21—17, dated 5th February 1870.
No. 25— 4, dated 29th June 1870.
No. 2, dated 2nd May 1885.
No. 8, dated 4th September 1886.

2. As the registration of a document is simply an evidence of its execution and does not and cannot confer any right which the document itself cannot convey, it appears to the undersigned that a Registering Officer cannot well refuse to register a document presented to him except for reasons mentioned in the Registration Act itself.

3. As it is however desirable that a record should remain with the Executive Revenue Officers of all unauthorized alienations, copies of such of the documents presented for registration as are opposed to the instructions conveyed in the above mentioned Circulars, should be forwarded to the Deputy Commissioner of the District to which the Registering Officer belongs.

The necessity for alteration or confirmation of the present proposed extension of the Bababudan Hill road was discussed, and it was resolved that the matter may lie over till the next meeting with a view to get more information as regards the comparative cost, difficulty and usefulness of the two roads, as also the contribution which may be expected in either case.

The comparatively small allotment worked out by the Revenue Department being brought to the notice of the members, it was explained by Amildars that best endeavours would be made to show better progress during the remaining months of the current year, and that the slow progress was

chiefly due to want of some permanent establishment to make out and submit correct estimates promptly and to supervise the works at their several stages. Some of the members stated that, in a Malnad District like this where labor is very dear, it is generally difficult to secure contractors for petty scattered works, and to entertain temporary establishments. It was also urged that the scheme according to Government Proceedings No. 14059-60—L. 1455, dated 8th March 1892, which the Taluk Méstris or Sub-Overseers are required to go twice a week to the Revenue authorities to help in the getting up of estimates for well works, &c., is not working well, as those officials being the subordinates of a different Department, have little or no regard or sympathy for the Revenue Department and when pressed they will have some excuse or other owing to dual responsibility. To meet these difficulties, it was unanimously resolved that a reference be made to Government to sanction solely for the Revenue Department a permanent professional hand of some status, who may materially help the Amildar in getting up of estimates and in supervising the works.

The following Proceedings and papers having been placed before the Board, it was resolved that the Government may be requested to provide funds for works or establishment concerned in the Budget already submitted but not yet passed.

Correspondence ending with Executive Engineer's No. 163, dated 18th May 1893.

Resolved that Rs. 750 be provided for the maintenance of 5 miles of Shimoga-Yedahalli road (at Rs. 150 per mile), transferred to this District from Shimoga District.

(*Note.*—The Executive Engineer says that the Chief Engineer will be asked to include the said amount in the Budget under preparation).

Government Proceedings No. 15600-10—L. F. 4-92, dated 22nd March 1893, sanctioning a Hospital for women and children in Chikmagalur.

Resolved that Rs. 280 ($\frac{2}{3}$rds of the cost except furniture) be provided in the Budget for 1893-94 which is in the course of sanction and that the Municipal Department be asked to provide for Rs. 140 ($\frac{1}{3}$rd cost except furniture) in the Municipal Budget.

(*Note.*—The amount entered in the Budget has to be altered according to this, as the Government Proceedings which were since received have given somewhat a different figure and as sanction has already been applied for.—*Vide* this office docket No. 592, dated 11th May 1893, for the cost of furniture, *viz.*, Rs. 192, being met from the savings of the District Fund and Municipal Fund Budgets of the current year in the proportion of $\frac{2}{3}$ and $\frac{1}{3}$ respectively).

Government Proceedings No. 15983-93—L. F. 123-92, dated 29th March 1893.

Resolved that the amount of Rs. 403—3—1 debitable to District Funds be provided for in the Budget for 1893-94, submitted prior to the receipt of these proceedings, if it is not already included on the authority, of the proceedings referred to here.

Then a list of works found necessary for the use of several villages was read out and it was resolved that a few of them as subjoined below may be undertaken without delay, should Government sanction the grant of Rs. 10,000 from Local Funds General. *Vide*—Correspondence with Proceedings No. 16206-7—L. F. 9-92, dated 1st April 1893.

R. VIJAYINDRA RAO,
On Special duty.

Department of Land Records and Agriculture, Bombay.

Second Note on the Potato Disease prevalent in the Poona District and in other parts of India.

The experiments of 1892-93 are described in detail in Mr. Mollison's note, which is appended. The methods and results of cultivation are there fully described, and in this memorandum only the general inferences to be deduced need be dealt with.

2. Last year's note elicited a good deal of enquiry, and among other facts of interest it was ascertained that the "bangdi" or ring disease was much more widely spread than was at first known. It has established itself throughout the Bombay Presidency including Gujarat, and has been found in the Nilgirries, at Bangalore, and in Bengal. There can be no doubt that preventive measures should be adopted without delay wherever the disease has made its appearance, and fortunately the results of the present experiments are encouraging as regards the practical steps to be taken.

3. Among other communications received from correspondents, some useful information was obtained from Mr. DeJoss, Superintendent at Panchgani, through the Collector of Satara. Mr. DeJoss found that burning the soil with vegetable material, the land having been previously well turned up with the plough and exposed to the sun, was effective to destroy disease-germs, and he succeeded in producing a crop of several varieties which was remarkably free from disease. Three of these were, however, plainly grown from newly imported stocks, and they were planted on the ridge system and not in beds as by native cultivators. Major Radcliffe, Assistant Commissary General at Mhow, wrote recommending the pulling of the haulms and also suggested that the "Magnum Bonum" variety might prove strong enough to resist the disease. We have, however, as shown in Mr. Mollison's note, found other varieties superior to the Magnum Bonum, and the idea of pulling the haulms was based on the assumption that the fungus, as in the European disease, fructifies on the foliage of the plant, which is not the case. But Major Radcliffe's recommendation gains interest from the latest conclusions reached by Dr. Cunningham, which also point to the pulling of the haulms as a preventive measure, though on somewhat different grounds. Mr. Creighton Duff of Coonoor is pursuing a series of experiments with potash and other manures intended to fortify the plant-system against infection.

4. Dr. Cunningham's researches were this season obstructed in some degree by an unexpected difficulty, *viz.*, by the failure of the diseased seed supplied to him for cultivation to reproduce the disease in the crop grown at Calcutta. Probably the diseased potatoes decomposed so far in transport as to lose their power of germination, and only the comparatively healthy ones survived. In any case it must on no account be taken as proved that diseased sets produced a sound crop because they were grown on virgin soil. No conclusion has been more clearly pointed to by the experiments and observations conducted in the field during the past two years than that the disease is propagated from the seed as well as from the soil, and that if anything the first source of infection is the more dangerous and common.

5. On the other hand Dr. Cunningham is inclined to a contrary opinion, microscopical investigation leading him to believe that the lesions in the tuber are of a secondary nature. The primary lesions, he writes, are those in the haulms, and it is the disturbance of nutritive conditions determined by these which occasions the pathological changes in the tuber. He says, "I should certainly be inclined to believe that the disease is maintained not by the use of diseased tubers as such, but as the result of planting either diseased or healthy ones in soil contaminated by containing portions of the haulms with their mycelial and specially their sclerotioid contents." It may be added in this connection that the brownish tinge in the haulm which was noticed last year as a chief diagnostic symptom has this year been much less marked. But although the discolouration has been less striking, following on

an absence of the previously observed tendency to the formation of sclerotioid masses within the larger vessels, it is always discoverable on section, Dr. Cunningham observing that in such preparations "the presence of abundant although generally isolated mycelial filaments comes out very clearly especially within the spiral vessels." In some young plants examined, he found abundant mycelium in the cortical and pith tissues, whereas last year the fungal masses were noticed in the vascular system only. Pulling *and burning* the haulms might, apparently, tend to save the soil from infection, but it is doubtful whether this can be recommended in practice. The disease develops itself most a little below the soil surface, and extends downwards as well as upwards in the stem. When pulled, the stem breaks off at the main point of disease-development, and as many germs would be left in the soil as would be removed.

6. The practical result of the Khed experiments of the past season is to show that certain varieties of imported seed can and do resist infection in a marked degree. The provisional inferences of last year were against this conclusion, but Mr. Mollison's experimental results have fully established it, and the cultivators of the district are eager to obtain seed for the new stocks at almost any price. Unfortunately it is difficult to keep the cold weather seed till the following winter, because of its tendency to sprout in the monsoon months, and it becomes necessary to grow a crop during the rains to provide seed for the main crop cultivation of the next cold weather. This rain-crop is not always as sound in cultivation as the dry-season produce, and here we find another cause tending to the deterioration of all stocks after they have been grown in this country for any length of time.

7. The "Bouillie Bordelaise" treatment of the land *before sowing* has succeeded in a very considerable degree, and there can be no doubt that flushing diseased land with the copper sulphate solution in the manner adopted in these experiments is specific as regards all disease germs which it reaches. It has been found in large degree to protect sound plants from infection and to prevent the spread of disease from one plant to another. The treatment with caustic lime and soot has been inconclusive because the imported seed proved so robust that the failure of the disease to make headway cannot with certainty be attributed to the treatment adopted.

8. The same somewhat unexpected degree of success with the imported seed has prevented any very clear differentiation being arrived at with respect to the methods of cultivation followed. The ridge and furrow system, however, has not been proved to have the full advantage at first expected. This is probably due to the more rapid growth and maturing of the tubers in this country, the crop being ready in 14—15 weeks as against at least 20 weeks in Europe. The bed system with its superabundance of surface moisture seems to enable the plant to effect the more rapid assimilation of food necessary under Indian conditions. But, on the other hand, it is extremely probable, as pointed out by Mr. Mollison, that the constitution of the plant is unfavorably affected by this luxuriance of growth and is more prone to disease in consequence.

9. The lesson so far learnt is that the disease may be largely checked by the use of the copper salt, but that reliance must chiefly be placed on the distribution of robust seed of the varieties which have been found most successful. It has also been found that the small cut sets used by natives induce weak growth, and that large cut sets or, better still, medium sized potatoes planted whole produce more vigorous seedlings. Great interest has been taken by native cultivators in the experiments, and they have shown themselves ready to take large quantities of seed at prices much over the market rates for the indigenous kind. There is therefore every prospect, at least in the Poona District, of our being now able to effect in the course of a few years a thorough change in the stocks cultivated, but it must be added that there is little prospect of including the raiyats to give their land the needed rest from potato, without which all measures can only be palliative and no permanent cure can be expected.

REPORT BY MR. J. MOLLISON, M. R. A. C., SUPERINTENDENT, GOVERNMENT FARMS, BOMBAY.

Potato Experiments, 1892-93, conducted at Khed, Poona District.

1. The aims of the experiments this year were:—

(*a*) To obtain knowledge as to the manner in which the "ring" disease gains admission to the plant.

(*b*) To test the effect of sulphate of copper, caustic lime and soot on disease-germs harbouring in the soil.

(*c*) To test improved methods of cultivation, and in particular to compare the ridge and furrow system of planting with the native "bed" system; also to compare whole potatoes as sets with cut sets.

(*d*) To ascertain whether robust varieties of imported seed will produce healthy crops on diseased land, with or without the treatment noted in (*b*).

(*e*) To compare the values of different varieties of imported seed.

2. The field selected for experiment is fairly deep medium black soil in the heart of the Poona potato district and is of the best kind for potato cultivation. Diseased crops of potatoes have been grown on the land for four years certainly. It is naturally sub-divided into four sections, each being of a slightly different elevation, but each block is tolerably level and all are well suited for irrigation. A well in a central position commands the whole and the water (which is extremely hard) was sufficient in quantity.

3. I append four tabular statements marked Section I, II, III, IV. Each exhibits a distinct line of experiment, and results on each are shown in tabular form as far as possible.

4. It may be useful to note first the manner of preliminary cultivation for the whole crop. The field grew "bajri" (*Penicillaria spicata*) as a rain crop, and as soon as this was reaped and removed our operations commenced. Farm-yard manure, thoroughly decayed and of good quality, was applied to Sections I and II before ploughing. These two sections were ploughed and harrowed three times and clods where necessary were broken by hand, thus securing thorough incorporation of the manure with the soil and thorough tilth to a depth of six inches. To Section III caustic lime was applied after twice ploughing and harrowing; subsequently it was once ploughed and twice harrowed, the object being to secure good tilth and at the same time to mix the lime thoroughly through the upper stratum of soil. Section IV was three times ploughed and harrowed. To this section soot was applied (as to part of Section III) before the sets were planted.

5. The mode of application of the sulphate of copper may be now described. The salt was first converted into a concentrated solution and was then added to the irrigation water as it was raised from the well by môt, a measured quantity of the solution being added to each bagful of well water as it was discharged into the receiving trough at the lip of the well. The salt was thus applied at any desired rate per acre. The hardness of the well water is probably due to corbonate of lime, and it was noticed that when the copper sulphate solution was added, a dense precipitate formed which was carried to the field by the flow of the water. This precipitate was probably hydrated oxide of copper, a compound which destroys fungoid germs but is harmless to vegetable tissue. If this assumption is correct, the change in the constitution of liquid was advantageous, as sulphate of copper has an injurious effect on vegetation.

6. The soot was broadcasted in the furrows immediately before planting, and therefore was in direct contact with the sets. Soot has some manurial value, and has often been used as an insecticide.

7. Turning to the results of the experiments in each plot, in Section I three

varieties of Kumaun potatoes and one kind of local indigenous seed were grown for comparison. The Kumaun potatoes are the descendants of well known English varieties which have been grown for a few years in the hills; but the varieties have become much mixed and are now by no means true to sort. There are eight plots in the section, six of which were treated with sulphate of copper (84 lbs. per acre); two were not so treated. The results in the first three plots are most interesting. Plot A grew country seed, undoubtedly diseased, planted in the native way in beds. Plot B grew Kumaun potatoes planted in the same way. Both these plots were without treatment. The same native seed as in A was planted on the ridge and furrow system in plot C, which was treated with sulphate of copper. About the 1st of January disease made its appearance in Plot A. On the 20th of January it had made considerable progress, at least ¼ of the plants being withered. On this date 1 plant was found diseased in Plot B and 6 plants in Plot C. The disease gradually increased in A and the infection extended into B, being worst in the latter plot along the border line. The disease made little progress in Plot C, and on this plot the benefit of planting the sets wide apart was well marked. The plants were large and vigorous and many flowered. Of these not a few produced seed-plums, a circumstance which has never occurred of late years in this district, though formerly common. While the seed rate was less, the produce was much more than in Plot A, and owing to their size the tubers commanded Rs. 2 per "pulla" (280 lbs.) more in the Poona bazaar than those grown in A. The sulphate of copper, therefore, undoubtedly exercised a beneficial effect upon the disease, but as regards the weight of the produce and the vigorous growth of the tubers, I assign the chief influence to the ridge and furrow system, an incident of which is that it gives ample room to each plant.

8. Plots D and E of Section I may further be compared with advantage.

In both Kumaun "kidneys" were planted on the ridge and furrow system,—cut sets in one plot, whole small potatoes in the other. The results are as under:—

		Seed rate per Acre.	Out-turn per Acre.
		Lbs.	Lbs.
Plot D cut sets	...	1,568	10,065
„ E whole sets	...	1,437	13,509

Wherever diseased seed was planted, sulphate of copper seems to have had some beneficial effect, but where the seed was sound, neither this nor lime nor soot can be said with any certainty to have proved of use. Apparently, the newly imported English seed and the Kumaun-grown English varieties resisted the disease independently of treatment, at any rate to a very large extent. This year, although I watched closely, there was in these varieties no sign of the disease before harvest, but when the crops were lifted, an occasional tuber of all varieties was found diseased.

9. Section II gives results in one respect which I did not anticipate. Sutton's "Early Regent" planted in beds gave a better crop than Sutton's "Windsor Castle" planted in furrows, and as these varieties grown in other plots under like conditions gave nearly like returns, the test is fairly conclusive. The "Early Regent" had a slight advantage of soil and was very even in germination, but these advantages are not sufficient to account for larger out-turn of nearly 6,000 lbs. per acre. The inference need not be that an increased out-turn is got by growing in beds; the safer inference is that if sufficient space is allowed between sets, the bed system does very well, and under these conditions may produce larger tubers and more of them than the ridge system, owing to the better storage of moisture. On the other hand, the luxuriant growth so induced may be the exciting cause of the disease which we are now endeavouring to cope with. The potato naturally likes a sunny well drained situation, and the altered conditions mentioned must have a serious effect on the constitution of the plant.

10. It may be noted here that a cultivator grew some Carter's "Reading

Giant" potatoes from seed supplied by me immediately adjoining Plot B of Section II, which was treated with sulphate of copper. His cultivation was otherwise identical, and as far as I could see, there was no sign of disease in the produce. This looks as if the robustness of the seed was the chief factor in resistance to the disease.

11. Sections III and IV were intended more especially to test the protective value of caustic lime and soot,—each alone or both together, but, as already pointed out, the experiment has so far been inconclusive.

12. In each of these two sections seven varieties of English potatoes from Sutton and Sons were compared. Unfortunately the results were to some extent vitiated by damage to the sets by white ants. The ants were attracted to the field probably by the castor cake which we had to use, as farm-yard manure could not be obtained except at a prohibitive price.

13. The best variety tried, for general cultivation, is Sutton's "Early Regent," which could have been sold in any quantity for seed purposes. Sutton's "Windsor Castle" comes next. Sutton's "Triumph" and Sutton's "Perfection" have each succeeded admirably and are beautifully-shaped varieties which cook well. Cultivators in this part of the country prefer a round potato to an oblong one, and round potatoes command a higher rate in the market. This is a prejudice which it may not be difficult to overcome, but the point is only of importance because it is desirable to meet the raiyat's views as far as possible. Excepting the "White Kidney" and "Snow-drop," both of which are delicate varieties, all crops from Sutton's seed sold readily as seed to cultivators at Rs. 12 per *palla* of 280 lbs. The present bazaar rate for indigenous sorts is Rs. 5 to Rs. 6. Of the Kumaun potatoes the "Magnum Bonums" are preferred.

14. I made a "Crop Experiment" test of a full average crop as grown this year by the cultivators of the Khed taluka. The seed rate, outturn, and value per acre are noted below, and, for comparison, the best returns from the experimental field from English seed similarly tabulated :—

	Seed Rate per Acre. Lbs.	Out-turn per Acre. Lbs.	Value per acre.		
			Rs.	A.	P.
Cultivator's crop	1,120	10,230	200	15	0
Sutton's Early Regent	1,180	16,871	723	0	0
Sutton's Windsor Castle	1,361	14,365	612	1	0

The great difference in value between our crop and that of the raiyats is due to the higher selling rate (Rs. 12 per palla as against Rs. 5½) which the produce of the English seed has commanded.

* "*Country way*".—The cut sets were planted in the furrow behind an ordinary country plough. The soil moved in making the next furrow covered the sets. Subsequently long narrow beds were formed, each containing four rows of potatoes. The rows were about 9 or 10 inches apart and the sets were 6 inches to 8 inches from each other in the rows.

† "*Ridge and furrow*" *System*.—Ridges were drawn with an ordinary country plough about 24 inches apart. The sets were planted 10 inches to 12 inches apart in the furrows. The sets were covered by splitting the ridge intermediate between two furrows, but every 2nd ridge was left intact, thus forming long narrow beds containing 2 rows of potatoes. These beds were found convenient for watering until the potatoes were well above ground. When the plants stood 6 inches high they were earthed up by hand so that they grew in the ridges, the irrigation water now flowing along the furrows. The 2nd earthing up was given with the "Planet Jr." bullock hoe a fortnight after the first (a country plough would have done the work).

Plot A was irrigated eleven times only, watering having to be stopped on account of the disease.

Plot H was watered twelve times, being an early variety.

All other plots were watered thirteen times.
